"And now, kids, let me tell you a tale," Jane's Grandma said. "Once upon
a time there lived an old woman. She lived in a house near a forest. She
was never married and she had no children so she lived alone. She had a
large garden with a lot of beautiful flowers in it. She liked flowers very much and flowers liked her too. She used to talk to each flower. Even
very rare flowers grew in her garden. People often came to her and asked
for some flowers, but she never sold them any flower. 'My flowers are my
best friends. How can I sell them?' answered the woman."

Yesterday I got up and suddenly felt something wrong. I had neither a headache nor a pain in my stomach. A sudden thought came into my mind. How could I forget! I washed my face and looked into the mirror. I was so sorry for that poor child!  "Be quicker! You won't have any time for your breakfast!" my Mum looked at me attentively. "What's wrong?"  "I don't know, Mum My throat! I can't drink even warm tea with milk!" "Why can't you?"  "I don't know! I just can't swallow! I have a terrible pain in my throat."  "OK," my Mum said. "I see. But you see, I just can't swallow"  "Are you going to swallow anything during your test?" my Mum asked sighing.

I understood everything. My Mum didn't believe me! Last time, when I was coughing badly, I also had a difficult test at school. Not in English, in Maths. And two weeks ago the day I had my Russian test, I suddenly felt a terrible toothache ... "But Mum, is it my fault1 that every time I have my tests something bad happens to me?"

"It is not, it is not at all," my Mum answered shaking her head. "All the fault is mine. Now I see you have real problems at school. OK, what shall we do now? Shall we get a bad mark in English or shall we stay at home and call a doctor in? 'We're so seriously ill,' we'll tell him. 'Please, doctor, help us, we just can't swallow ...' I couldn't even look into my Mum's eyes. How could she understand everything? Perhaps when she was a little girl, she was also afraid of her school tests so much that something bad always happened to her health too ... 2) What words are missing?

Teacher. And now, children, we're going to talk about proverbs.

Ann: Excuse me, teacher, what is "proverb"?

Teacher. A proverb is a statement expressing an idea in a short and often humoristic way. It helps us understand and remember it at once. All proverbs came to us from the ancient times. People repeat them hundreds of times and thus they have become a part of our culture.

Bob: Excuse me, teacher, could you give us an example?

Teacher. Certainly. For example: Two heads are better than one. Or: The more things change, the more they stay the same. Or another one, I like it very much: First things first. I'll repeat it once again: First things first.

Ann: Excuse me, teacher, are there any English proverbs about the weather? Teacher: There are some. For example: There's no bad weather, there are bad clothes. Or: It's raining cats and dogs.

Bob: Oh, it sounds funny! But what does it mean?

Teacher. Kids, tell me, who knows?

Bob: I think it means that many cats and dogs have no home. And that's why it rains them ...

Teacher. Well ... It's not a bad idea ... Are there any other ideas?

Ann: I think it means just that it rains and rains and rains ... Many days running. Teacher: You're almost right. This proverb means that it rains heavily. So, children, the task to the next lesson is to find seven English proverbs.

Bob: About the weather?

Teacher. Not only. You can choose any proverbs you like. About people's habits, attitude to life and so on. Is the task clear?

Ann: Yes, it is. But shall we explain those proverbs in a written form?

Teacher. Oh, no. You only have to find them and understand. We shall discuss them at the next lesson.

# Методические рекомендации

Контрольные задания включают два вида тестовых заданий (в двух вариантах):

1) поурочные контрольно-проверочные работы (Tests);

2) обобщающие контрольные работы (Progress Tests), по итогам каждого раздела учебника.

Для проверки полученных за год знаний предлагается проверочная контрольная работа Annual Grammar Review (Progress Test 5), а также итоговая контрольная работа

(Review Test) в четырёх вариантах.

Значком «звёздочка» в пособии обозначены либо дополнительные задания, за которые хорошо успевающие ученики могут получить дополнительную оценку, либо более сложные предложения, за правильное выполнение которых рекомендуется поощрять ученика «накопительной карточкой». Из нескольких карточек постепенно складывается высший балл.

Значком «сова» (

обозначены задания на логическое мышление или эрудицию, выполнение которых также обеспечивает ученика накопительной карточкой.

Дополнительные задания выполняются по выбору ученика, однако следует рекомендовать всем успевающим ученикам пробовать их выполнять.

Для получения высшего балла (пятёрка, десятка) необходимо верно выполнить все обязательные задания.

Допускается следующее количество ошибок (для пятёрки):

1) Грубые грамматические ошибки (неверно употреблённое время, несуществующая конструкция, неверный вспомогательный глагол и т. д.) - 0 ошибок.

2) Орфография – 2 ошибки в работе.

- 3) Задание, где требуется найти вторую часть предложения, и подобные 0 ошибок.
  - 4) Задание "What words are missing?" 0 ошибок.

5) Аудиозадание — 1 ошибка.

В общей сложности для получения высшего балла нужно выполнить работу с 0—3 ошибками.

Задания повышенной сложности ( ) рекомендуется оценивать только положительно или не оценивать вовсе.

Аудиозадания на диске записаны в двух видах, что даёт учителю возможность выбрать подходящий ему вариант работы.

Вариант 1 для удобства называется A, вариант 2 — B.

Тексты начитаны:

- 1. повариантно А-В-А-В-А;
- 2. блоками ААА-ВВВ.

Первый вид записи, повариантно, рекомендуется использовать в том случае, когда контрольная работа выполняется в двух вариантах. Это позволит одновременно подключить к работе всех учеников.

Второй вид записи, блоками, рекомендуется использовать для мини-групп (3—5 человек), которые делают только один вариант, а также дополнительно для проверки поочерёдно прослушанных вариантов (при необходимости в слабых группах).

Аудиозаписи следует прослушивать 1, максимум 2 раза.

#### Test 1. Exercise 3)

Задание оценивается по следующим критериям:

- 1) знание слова;
- 2) правильное объяснение сути данной профессии;
- 3) отсутствие грубых грамматических ошибок в ответе.

Допускаются незначительные орфографические погрешности (максимум 2) для получения высшего балла.

#### Test 3. Exercise 5)

Оценивать аудиозадание следует по правильно услышанному «лишнему» слову. При выставлении оценки за данное задание не стоит учитывать неверное написание слова.

#### Test 5. Exercise 5)

Ученики отмечают правильные и неправильные варианты сразу при первом прослушивании. Более слабая группа может слушать 2 раза.

Вписывать номера правильных ответов в строчку после таблицы следует в последнюю очередь.

#### Progress Test 1. Exercise 3)

Рекомендуется при оценке задания учитывать его очевидную сложность. Предложение 3 предназначено лишь хорошо успевающим ученикам и является дополнительным.

#### Exercise 6)

Задание рекомендуется оценивать по следующим критериям:

- 1. Отсутствие грубых грамматических ошибок (формы глаголов, порядок слов (3—5 баллов).
- 2. Связность и самостоятельность изложения (3-5 баллов).
- 3. Правильность написания слов. Некоторые орфографические погрешности в данном задании допустимы. За одно неверно написанное слово можно поставить 2 балла. (0-2) балла)

Отлично и хорошо выполненное задание рекомендуется поощрять дополнительной оценкой, поскольку самостоятельное изложение мыслей на предложенную тему является одним из самых сложных для ученика заданий.

В сумме оценка за это задание:

- 11—12 баллов пятёрка
- 9-10 баллов четвёрка

Плохо выполненное задание рекомендуется не оценивать вовсе.

#### Exercise 7)

- 1) При необходимости можно прослушать диалог дважды, после этого выполнять задание.
- 2) Дополнительный пункт (10) проверяет не только понимание текста, но и способность логически осмыслить прочитанное (или услышанное) по-английски:
- 1-й вариант: высказывание очевидно ложно. Латинский язык «мёртвый», на нём в настоящее время не говорят, по крайней мере, в обиходной речи. Развитый и знающий ученик V класса может заметить, что иногда врачи обмениваются между собой латинскими терминами, а также что католические проповеди читаются в некоторых странах на латинском языке.

<u>2-й вариант:</u> высказывание очевидно ложно. Прежде всего потому, что один мальчик хвалит другого за хороший английский. Вряд ли они оба греки, приехали из одной и той же страны и говорят между собой по-английски, а не на родном языке.

#### Test 6. Exercise 6)

Задание предлагается для выполнения всем ученикам, однако оценивать рекомендуется лишь хорошие и отличные ответы. (Критерии оценки см. Progress Test 1).

#### Test 7. Exercise 5)

Правильно сделанное задание рекомендуется поощрить дополнительным баллом (накопительной карточкой).

Exercise 6) Задание предлагается для выполнения всем ученикам, однако оценивать рекомендуется лишь хорошие и отличные ответы.

#### Test 8. Exercise 4)

Правильно сделанное задание рекомендуется поощрить дополнительным баллом (накопительной карточкой).

#### Exercise 5)

Так же как и в Test 6 и 7, оценивать рекомендуется лишь хорошие и отличные ответы.

#### Test 10. Exercise 4)

Предложение 2 более сложное, составление вопроса с употреблением пройденной новой глагольной формы может вызвать трудности. Это предложение рекомендуется для успевающих учеников в качестве дополнительного задания.

#### Exercise 5)

Задача ученика — прочитать короткий текст, осмыслить его, на его основе написать обращение к мэру. Ученики должны сообразить, что фактически весь текст обращения находится в данном им отрывке. Они должны добавить от себя некоторые слова и фразы и перефразировать имеющийся текст.

Оценивать подобное задание следует так:

- 1) Соблюдение грамматических правил (в данном случае времена Present и Past Simple, Present Continuous, оборот "There is") (3—5 баллов).
- 2) Способность связно выразить мысль в 3—4 предложениях. Именно в этом задании требуется самостоятельно сформулировать обращение, т. е. недостающую в отрывке фразу, для изложения просьбы или требования остановить уничтожение парка (3—5 баллов).
  - 3) Правильность написания слов (0-2) балла).

За это задание рекомендуется ставить отдельную оценку, составленную из баллов.

В сумме оценка за это задание:

11—12 баллов — пятёрка

9-10 баллов - четвёрка

7—8 баллов — тройка

## Progress Test 2. Exercise 4)

Непривычное по форме задание может вызвать сложности. Проверяются умения в чтении, навыки анализа текста, навыки использования грамматических конструкций.

Рекомендуется отдельно оценивать отлично выполненное задание.

## Test 12. Exercise 5)

Задание рекомендуется оценивать по следующим критериям:

- 1) Связное самостоятельное изложение текста (3-5 баллов).
- 2) Знание необходимой лексики (3-5 баллов).
- 3) Отсутствие грамматических и орфографических ошибок (3-5 баллов).

Возможно поставить за это задание отдельную положительную оценку в случае, если ученик очень хорошо справился с заданием — не просто отвечал на вопросы, а смог составить небольшое изложение на заданную тему.

- 13-15 баллов пятёрка
- 10-12 баллов четвёрка
- 7-9 баллов тройка

#### Exercise 6)

Сложное и длинное задание, которое возможно сделать на отдельном уроке. Прослушать текст рекомендуется не менее двух раз без остановок.

#### Test 13. Exercise 5)

Задание рекомендуется оценивать по следующим критериям:

- 1) Отсутствие грамматических и орфографических ошибок (3-5 баллов).
- 2) Знание необходимой лексики (3-5 баллов).
- 3) Фактические знания (страноведение) (3-5 баллов).
- 13—15 баллов пятёрка
- 10—12 баллов четвёрка
- 7—9 баллов тройка

Возможно поставить за это задание отдельную положительную оценку.

#### Progress Test 4. Exercise 7)

Сложное, непривычное задание. Рекомендуется оставить на него не менее 15 минут (вместе с самостоятельным прочтением текста из задания 6).

Ученики должны прочитать текст и после этого, слушая вопросы, находить правильный ответ и отмечать его.

На выбор ответа из числа предложенных следует давать не менее 15—20 секунд на каждый. При необходимости учитель может дополнительно повторить вопросы.

#### Test 19. Exercise 7)

Оценивается:

- 1. Навык правильно пользоваться новой грамматической конструкцией (if, when).
- 2. Способность самостоятельно придумать связное, логичное предложение.
- 3. Правописание.

За отличное выполнение этого задания рекомендуется выставить поощрительную оценку или вручить накопительную карточку.

## Test 20. Exercise 5)

Задача ученика — написать маленькое сочинение, а не просто 3—4 предложения. Поэтому оценивать следует приоритетно по следующим критериям:

- 1) Связность изложения получилось ли сочинение либо это просто ответы на вопросы (2—5 баллов).
  - 2) Владение лексикой (2-5 баллов).
  - 3) Отсутствие грубых грамматических ошибок (глагольные формы) (2-5 баллов).
  - 4) Допускаются незначительные погрешности в написании слов.
- (0-2) балла). 2 балла возможно поставить при 1-2 незначительных погрешностях в написании слов.
  - 15-17 баллов пятёрка
  - 12-14 баллов четвёрка
  - 9-11 баллов тройка

Test 22. Exercise 6)

Пункт 8. Хорошо успевающий ученик способен понять из контекста, что продавец встречал(а) русских раньше.

Progress Test 5. (Annual Grammar Review)

Проверочная контрольная работа по основному грамматическому материалу всего года. Сделав её, ученики подготовятся к написанию годовой контрольной работы.

Эту работу можно дать для самостоятельного выполнения дома — ученики смогут повторить по учебнику необходимую для годовой контрольной работы грамматику.

Exercise 6)

Вторая часть задания со звёздочкой является дополнительной и предназначена для хорошо успевающих учеников. Задание может быть дополнительно поощрено.

Exercise 8)

Если работа выполняется на уроке, последнее предложение, отмеченное звёздочкой, могут выполнять не все ученики, а лишь хорошо успевающие.

#### Review Test

Итоговый тест в четырёх вариантах, одинаковых по сложности.

Возможно дать группе один из вариантов как пробный, чтобы ученики подготовились к годовой контрольной работе, проверили свои силы и увидели, что именно необходимо повторить для успешного написания итоговой работы. Если ученики делают пробную контрольную дома, то аудиозадание они не выполняют. Если на уроке даются все четыре варианта, то варианты 1 и 3, а также 2 и 4 совпадают.

Exercise 7)

При оценке этого дополнительного задания следует учитывать его очевидную сложность.

## Exercise 8)

Задание оценивается по следующим критериям:

1) Отсутствие грамматических ошибок (2-5 баллов).

- 2) Связность, самостоятельность и оригинальность изложения (2-5 баллов).
- 3) Знание необходимой лексики (2-5 баллов).
- 4) Правильность написания слов (0-3 балла).

За это задание рекомендуется выставить отдельную оценку. Задание показывает способность ученика связно изложить свои мысли на заданную тему. Главное в этом задании — чётко и грамматически правильно выразить мысль. Рекомендуется оценивать ученика именно по этому критерию (для высокого балла допускаются 1—2 погрешности в спеллинге при отсутствии грубых грамматических ошибок).

16-18 баллов - пятёрка

13—15 баллов — четвёрка

10-12 баллов — тройка
