Michael's rucksack

I'm Mark and my little sister's name is Katy. Last Saturday, we went to London with our parents. Mum drove us there in the car. Our cousin Michael came to London too, but he went by train so we met him at King's Cross Station. He had a heavy rucksack with him. 'Put your rucksack in our car, Michael,' Dad said. 'We're going to walk now.' 'No, thanks. I might need it,' Michael said.

We went to the dinosaur museum first. I asked Dad lots of questions but he didn't know the answers. Michael took a book about dinosaurs out of his rucksack. 'Here you are!' he said to Dad. 'Thanks, Michael,' said Dad.

When we left the museum, it was raining. 'It's OK,' said Michael. 'I've got an umbrella in my rucksack.'

We went to a restaurant for lunch. There were only chopsticks on the tables and Katy couldn't use them. Michael gave her a plastic fork from his rucksack. 'Have this,' he said.

In the afternoon, we wanted to go to the cinema but we couldn't find it. Michael took a map of London out of his rucksack and we soon found the street where the cinema was.

After the film, Michael wanted to get a postcard but he didn't have any money in his pocket. 'Look for it in your rucksack!' we all said.

Robert and the cave house

Last year, Robert went on holiday to a very old village near the mountains. It was famous because, a long time ago, people lived in caves there. When Robert and his parents arrived at their hotel, they found some photos of the cave houses in their room. They looked very interesting and the next morning they got up early to go and visit them.

When they went inside the first cave house, Robert was unhappy because it was very dark inside. But after a few minutes, he could see the old rock walls and some funny rock stairs too. It was very interesting.

Suddenly, Robert heard something above his head. He looked up and saw three bats. 'Mum! Dad! There are bats in this cave,' he whispered.

'Well, bats like living in caves too,' his mother answered. 'It's OK. They won't hurt you. Come and look at this.' Robert's mother took a big torch out of her rucksack and pointed it at one of the walls. There were some beautiful paintings of the people and the animals that lived there thousands of years ago.

'Wow!' said Robert. 'Would you like to live in a cave, Mum?'

The family in the tree

William loves going to stay with Grandma and Grandpa. They live on a farm in the countryside. Last summer when he was there, his grandpa helped him to make a house in one of the trees. They put a little chair into it and William played in his tree house every day.

William and his parents went to the farm again last weekend. William ran to the tree to see his house. It was full of leaves so he had to get a brush and clean the floor. When William looked in the corner of the house he saw five small eggs, which were on some dry grass on a little chair.

He climbed down the tree and ran to get his grandpa. 'Come and see,' he shouted.

Grandpa came to see the eggs. 'Can I take them back to your house?' asked William. 'No,' Grandpa said. 'Let's wait for the mother bird.'

William and his grandpa sat quietly in the tree house and waited. Then a grey and white bird came back to the eggs.

William had to go home the next day, but three days later his grandma phoned him, 'Come back to the farm quickly!' she said.

William's mum took him to the farm in the car after school. They climbed the tree very quietly and they looked into the tree house very carefully. There were five little baby birds on the chair.

Planets

Example

We live on oneof..... nine planets. The name of our planet
 1 is Earth. The other eight planets are Mars, Mercury,
 Venus, Neptune, Uranus, Pluto, Jupiter and Saturn. The planets
 2 are like big balls of rock and metal and they go round
 the sun. The sun is not a planet, it is a very big star.
 3 Jupiter is bigger the other planets and it has got 16
 moons. Pluto is the smallest planet, and it is the coldest one because
 4 it is very far from the hot sun. Pluto has got one moon.
 Mercury is the nearest planet to the sun and it is very hot.
 5 Our planet Earth is Venus and Mars but they are very
 6 far from us. Rockets take very long time to go from one
 7 planet to another. Earth is the only planet things grow
 and people and animals live. Some people think that there are people
 8 animals on some of the other planets. No one has
 9 ever to the other planets.
 10 Perhaps people go to visit the other planets in the
 future.
