Authors' thanks and acknowledgements

This project would not have been possible without the unfailing commitment and enthusiasm of Ye. A. Lenskaya, Assistant Director for Education and English Language, British Council, Moscow. Our special thanks and deepest gratitude go to Diana Lubelska and Rod Bolitho, from The College of St Mark and St John in Plymouth, UK, for consultancy advice and inspiration and to Ruxandra Popovici of the British Council in Bucharest for generously sharing her professional experience with us.

We would also like to give our thanks to Ye. G. Borovikova and O. L. Groza from the British Council, who contributed to the book by their efficient management, administration and academic coordination of the project.

The authors would like to thank all the members of the BC ELT Advisory Board, whose comments and suggestions have helped with the book, especially David Crystal, John McGovern, Katherine Walter, S. G. Ter-Minasova, M. Z. Biboletova, J. M. Kolker and V. V. Kopylova.

Our thanks go to the SPEX Project Team, St Petersburg, for their help in developing the assessment component of the book.

We would also like to thank M. V. Verbitskaya (Moscow State University), T. G. Dobrosklonskaya (Moscow State University), O. Ye. Podolyako (Education Centre OAO "Gazprom"), M. D. Pospelova (School No 1971, Moscow), Ye. S. Ustinova (Ryazan Pedagogical University) for advice and support.

The authors thank the following individuals for the oral and written materials contributed by them: Carrie Wolf, Jarmee Thieu, Olga Sokolova, Tatyana Koryakhina, Malcolm Percy Wilhelm Whynott, Sherrel and Stephen Jones, Pamela Martin.

Special thanks to music band "Western-S", Omsk, Russia and Sergei Gruzdev, Omsk State Railway University, for their music and songs, and to Andrei Pospelov (Krasnoyarsk) for photography, to Peter Loeffler for his photo and Siberian International Marathon for website materials.

Lesson 1 School small talk

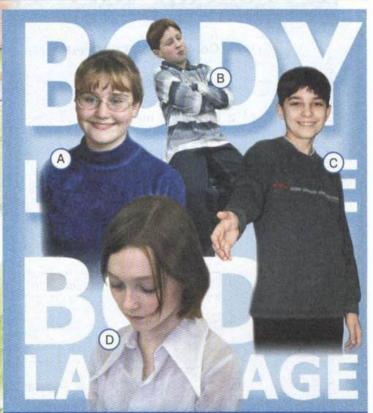

3a Look at the big picture and answer the questions.

- 1 Why doesn't anyone come to talk to the boy?
- 2 Why doesn't anyone come to talk to the girl?

3b Read and group the pictures.

Good body language	Bad body language
A,	

Do you "speak" good BODY LANGUAGE?

TIP FOR THE FIRST SCHOOL DAY

"Body language" often communicates what we want to say to people even before we open our mouths. It shows people what we feel and if we really want to communicate. What is "body language"? Friendly body language is a smile, a lot of eye contact, open posture (your arms and legs uncrossed), a warm handshake.

If your body language is unfriendly (no smile, little eye contact, closed posture, leaning back), people think that you don't feel like talking or you are thinking about something important. Then they don't come to talk to you. If you want to have a good conversation, you should learn to speak good body language.

3c Read again and decide which person in Ex. 3b you would / wouldn't like to talk to and why.

Example: I'd like to talk to A. A is smiling.

4 Think of advice you can give to the children in the big picture.

Example: He / She should smile.

5 Do the questionnaire and find out if you can communicate well.

Look at the key. You get five points for every right answer.

Your score is 0–20. You cannot say a lot about communication. Are you shy? Or do you want to live alone? If you don't, study Unit 1 carefully to improve your communication skills.

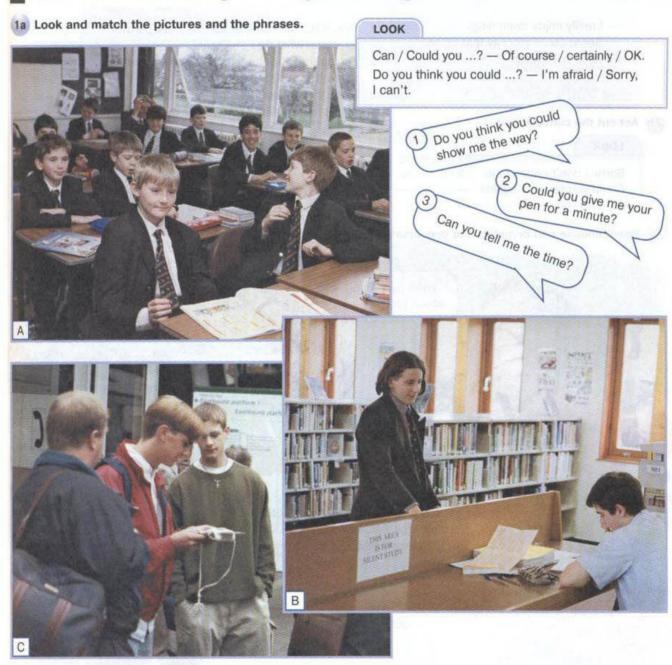

Your score is 20–40. You know quite a lot about communication. You have friends and you talk a lot. But sometimes you can't say what you want to say and people don't understand you. Other times you feel you don't know how to ask people to do something for you. What is your problem? Do you speak bad body language? Study Unit 1 carefully and you'll get your point across.

Your score is 40–50. You know everything about communication. You can talk to different people easily. But... Can you talk to animals? Can you read hieroglyphs? Can you understand signs? Do you know any codes? Can you send an SMS message in English? If you can't, study Unit 1 carefully to learn how.

Lesson 4 Who said "Miaow"?

Animals do not have "conversations" like people. They show what they want with their faces and hands. Chimpanzees [,tʃimpæn'zi:z] show fear, anger and amusement in nearly the same way as people.

Apes like gorillas, orangutangs or chimpanzees also signal to each other by the way they walk or stand. Sometimes you can see the leader of a group of gorillas stand quite still, facing in a particular direction. It means that he wants the group to move to a new place.

Bees, who cannot make sounds or show anything with their hands, have a secret language which they use to show other bees how to find food. They do a "round dance".

Birds have a beautiful way of communicating. To **attract** a girlfriend a **male** peacock shows his beautiful feathers. He turns and dances to charm her with his wonderful tail.

3b Read again and answer the questions.

- 1 Which animals can tell others about danger?
- 2 Which animals can sing?
- 3 How do apes communicate?
- 4 What is the "secret language" of bees?
- 5 How does a male peacock attract a girlfriend?
- 4a Read part B in Ex. 3a again and translate the underlined phrase.
- 4b Compare each English sentence and its Russian equivalent and answer the questions.
 - He wants the group to move to a new place.
 Он хочет, чтобы группа перешла на новое место.
 - My dog wants me to feed it.
 Мой пес хочет, чтобы я покормил его.

- 2 I think it's OK. I just want them to work properly.

3b Read and check your guess.

What do schools say?

For many schools, mobile phones are a real headache. They are a problem in lessons and a target for thieves. Some schools ban mobile phones, others fine the owners of phones that ring or bleep during lessons.

What do parents say?

"My kids spend a lot of time and money sending texts. Of course, I don't like it very much. But I think they are **safer** if they have a mobile," said one parent. "When my son got a mobile, I was surprised. He stopped **hanging around the phone**. He became more **organised**. And he made lots of friends," said another parent.

HOW CATS "TALK"

- A High strong sounds are used for cat-to-cat communication. The mouth is open wide and the sound is very strong. Cats may growl or hiss, or give an angry wail. It is not very pleasant when somebody communicates with you like this.
- B The vowel sounds are stronger, with the mouth open wide to say "miaow", "mew" and "mewwow". These sounds mean that a cat wants you to do something or is asking for something. This is also how cats show surprise and that they do not like something. You can easily recognise your cat by his or her miaow.
- C Often people think that animals like cats cannot express themselves in a variety of ways. What we hear from cats is just "miaow". But cat language actually has three different types of sounds: purrs, vowels and high sounds.
- D Cats make soft sounds like a purr when they say hello or thank you, or when they want people to look at them. When cats purr, they don't open their mouths.

esson 8 Fun with codes

1a Read the text from The International Secret Agent's Book and find out what a code is.

ave you ever wanted to send someone a secret message? A message that only you and that person would understand? You could write backwards or upside down, but that wouldn't confuse anyone for long. So what could you do?

Some codes use signs and symbols to represent letters or whole words.

See if you can make up a code. You could begin by using numbers for letters:

A = 1, B = 2, C = 3, and so on.

What would this say? 19 5 3 18 5 3 15 4 5 19

1b Read again and work out the coded message.

2 Read this paragraph and find what the last words mean.

This code is more difficult. It was invented by a man called Gianbattista della Porta, an Italian who lived in the sixteenth century. Here's how you decode Gianbattista's message. First, draw noughts and crosses boxes.

- Read about another code the Ancient Egyptian alphabet and try to send a secret message of your own.
 - Use the "sound" hieroglyphs to write your message. Match the sounds rather than spelling.

ong before anyone invented letters, the Ancient Egyptians wrote using little pictures and symbols. Their writing looked like small symbols and pictures which we now call hieroglyphs ['hararaglifs]. Hieroglyphic signs were used in different ways.

Some signs were pictograms: $\int \lambda = walk$, go.

Some signs were used as rebuses: swallow, great.

Some signs gave extra clues about tricky words that had more

than one meaning. For example: open and hurry.

To make the right meaning clear, other signs were added:

with the sign for door means open.

with the sign for $go \Lambda$ means hurry.

And some signs were used just for their sounds. Some of the hieroglyphs on this page made sounds similar to the letters we use.

 - There is one extra reason.

Speaker 1

a) likes being part of a team

Speaker 2

b) enjoys doing sport

Speaker 3 Speaker 4 c) thinks that sport helps him / her to keep fit

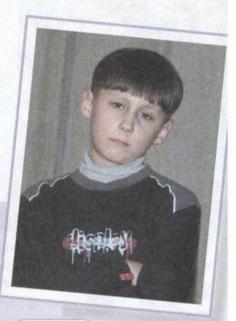

d) likes looking smart in a tracksuit

e) likes taking exercise in the countryside

2a Read the teenager's letter to a sports magazine and say what his problem is.

At school I do three hours of sport a week. I've always hated sport. When I can, I miss the lessons. This term I've pretended that I've hurt my leg so I don't need to do any sports at school. I even go to the doctor every week to do special exercises for my leg. The problem is that I can't pretend that I've got a problem with my leg all year. I really don't know what to do, I'm in such a mess. I really feel so bad about this. What should I do?

Sam, 12

GLOSSARY

pretend [pritend] — притворяться

 - Don't write your name if you don't want to.
- 5b Read the messages and give advice.
- 6 Read about Joanna's problem and write a letter to give her some advice.

self-conscious [,self'konfəs] — застенчивый, неловкий

I've never been really slim, so when I started school I was worried about PE. We did badminton and volleyball, which were OK, but I still felt self-conscious. At first I didn't like putting on my sports kit in front of the other girls in the changing room, but after a few weeks it was OK. Then we started gymnastics. I really hated it and my teacher, Miss Bell, made it worse.

Last week one by one my classmates jumped over the horse. Then it was my turn. It was really high and I was scared. I couldn't move. Miss Bell laughed at me and joked, "Hurry up, Fatty!" It was terrible. I ran out of the gym. My face was red and I was crying. I don't know what to do about PE now.

Lesson 4 Football mania

- 1a Read the title of the text in Ex. 1b and guess why Kelly was kicked out of the team.
 - a) She broke the rules of the game.
 - b) She was a poor football player.
 - c) The team lost the game because of her.
 - d) Your answer?
- 1b Read and check your guess.

I WAS KICKED OUT OF THE TEAM

was seven when I first kicked a football around with my brother. Most of my friends were boys and I just enjoyed playing with them. I loved **football** so

much that I went to the park every Saturday to watch the boys play in real games. Then one day they asked me to play too.

"God, you're fantastic!" they said all the time. They were surprised that a girl could play so well and I was just so happy to be part of the **team**.

The real competition **matches** were great. It was funny. Nobody in the other teams thought I was a girl. I had short hair, and they didn't expect to compete with a girl, so they thought I was a boy! My team were wonderful. I was the same as everyone in the team. We played lots of games and I became one of the best **players** in the team.

But it all changed one day when someone shouted, "Go Kelly!" The second time they shouted this, the fans of the other team complained to their manager, and I got lots of problems from the players. It was really horrible when their parents started to complain too, "Get her out, get her out!" or "Don't let her **pass**." It was a very difficult time for me. I just wanted to play the sport I loved! But soon word got around, and more and more teams did not want to play with us. In the end my new manager asked me — through my dad — to leave.

respect [п'spekt] - уважение

Ghetto Grammar is a school with a mission to teach young performers the art of rap.

- 1 For the teachers at London's first rap school, there's much more to rap than just talking over music. There are five main parts to the school programme: "the art form" (how to rap and DJ), "the culture" (the history of rap music), "the science" (how to write rap lyrics), "the business" (how to work with managers and record companies).
- Teachers at the school are experienced professionals, from America and the UK. The experts can teach you how to improvise lyrics over music. They also give advice about rhyming and content.
- 3 Rap isn't just about words, it's also the performance. There's no point in having a brilliant lyric if no one can hear what you're saying. It's also important to maintain eye-contact with your audience, to keep them interested in your performance.
- 4 If British rap is to have a future, young artists need all the help that they can get. Rap started in America, and British artists often find it hard to be successful in their own country. Strangely, many British rappers say that they are more popular in Germany or France than they are in the UK. Some people think that it's a question of accent. British fans seem to prefer the sound of an American accent. But if the British artists try to imitate American accents, they quickly lose the respect of their audience.
- 5 The future of rap in the UK is uncertain. Studying rap with Ghetto Grammar might help to improve the situation. The classes are fun, but it isn't easy. Only the very best have a chance of success in the music industry.

1 F

From a very big Canadian family. I'm one of fourteen children, nine girls and five boys.

2

I always wanted to sing. I was born into a family of musicians. My mum played the violin, my dad played the accordion. All my brothers and sisters play different musical instruments: drums, guitar, bass, etc. My parents used to tour a lot. We never had any money but we children had everything we needed — lots of love, attention, affection and music.

3

It was my mum who kept telling me that I had to do it professionally. My brother wrote a song for me and sent a demo tape to a record company, where I found my future manager, my future producer and husband.

4

When I first visited a record company I was twelve. Since then I've been singing.

5

I travel all the time, so I miss my home, I miss normal life. I do love housework. I love doing everything around the house: cooking, washing, ironing, everything. The perfect holiday for me is to be at home, in my slippers.

6

It's *Titanic*, an incredible love story, very touching and heartbreaking, and I'm happy to be a part of it.

Nine Hundred Miles

I'm a-ridin' on the train, I've got tears in my eyes Try'n to read a letter from my home,

If that train runs me right, I'll be home Saturday night, 'Cause I'm nine hundred miles from my home.

And I hate to hear that lonesome whistle blow. It's that long lonesome train a-whistlin' down.

Well this train I ride on

Is a hundred coaches long,

You can hear the whistle blow a hundred miles

And the lonesome whistle call

Is mournfullest of all,

'Cause it's nine hundred miles from my home.

Well, I'll pawn you my watch And I'll pawn you my chain,

I'll pawn you my gold diamond ring,

For if this train runs me right,

I'll be home Saturday night,

'Cause I'm nine hundred miles from my home.

If my woman says so

I'll railroad no more.

I'll sidetrack this wheeler and go home,

If this train runs me right

I'll be home Saturday night,

'Cause I'm nine hundred miles from my home.

Hi, Dan!

I'm finally in California. I'm writing from Sequoia National Park. Sequoias (they call them redwoods too) are giant trees and they're very old. They're huge. The one in the picture is over a thousand years old. I saw a car drive through an arch in the tree. It was amazing! But my tour ends here. I'm coming back home tomorrow. See you soon.

Hi, Danl

Hope you are well.

Does this look familiar to you? It's the

landing spot from the movie Close Encounters of the Third Kind. Well, I didn't see any mother ship land on top of Devil's Tower, but I loved the prairie dog town and I saw deer come out to feed at sunset. We climbed the tower and could see for miles. Fantastic! Love,

Jennifer

Hi. Danl

Hope you're having fun, too. My American vacation has begun.

We arrived in Chicago late in the evening and the first thing we did was to take the elevator to the top of the Sears Tower. We were 1,450 feet above the ground, on a skydeck on the 103rd floor. We watched millions of lights shine for miles around. Beautiful! And today

Hi. Dan!

Thanks a lot for your riding lessons. In Montana we spend a lot of time riding. You should see me ride a horse with my cowboy hat on. I think I would make a perfect cowgirl. FAMOUS FIRST JOBS

Eighty per cent of U.S. teens have had a job by the time they finish school. Here are some famous examples:

Walt Disney, an animator, sold his first drawings to neighbors when he was only seven years old. From age 8 to 14 he got up at 3:30 each morning to sell newspapers.

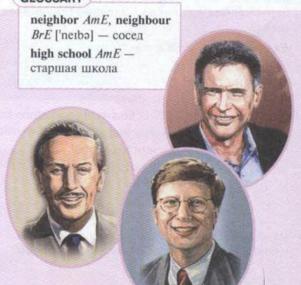

Bill Gates, the founder of a software corporation, began programming computers at 13. He started his first computer company, Traf-O-Data, when he was in high school. He and his classmates created programs for making schedules for city buses.

Harrison Ford, an actor, worked as a visual assistant whose job was to push projectors from room to room.

Maggie Martin: I think after-school jobs and summer jobs are good for kids because they learn good habits: how to be on time, how to be responsible, and how to be independent. They teach kids about working for the things they want and not just waiting for their mom and dad to buy things for them.

Steve Jones: When I hire teens, I look for those who will make it to work on time, who understand that a job is an important responsibility and that hanging out with friends on a Friday night is not more important. Teens have a lot of energy, they learn quickly and they work hard to get their paychecks.

Pamela Wolf: I get a summer job at a hospital because I want to be a doctor. I want to know if I can be one and if I like it. A summer job is a great way to find out what you really like to do. And I can write it on my resume to help me get a good job in the future.

Joan Davis: Summer jobs are fine for high school students. But an after-school job can be a problem. If a student works for too many hours, he / she sleeps during class and doesn't do any studying at home. Well, some parents think that if their child doesn't do well at school, he / she better get a job and learn something practical. But I don't really agree. School is more important at this age.

esson 4 The story of jeans

- 1 Read and match the things in the picture and the paragraphs which tell about them.
- The first jeans were made in 1873 in California by Levi Strauss and Jacob Davis. Levi was a German who came to San Francisco during the Gold Rush. He was a successful businessman. He sold a lot of things that gold miners needed. Among other things gold miners needed strong clothes for their work.

At first miners' work pants were made of canvas. But the miners complained that the pants were uncomfortable. Later denim was used. This material felt comfortable, it was strong, practical and perfect for work

- "Jean" was a material made in Europe. It got its name from sailors in Genoa, Italy because their clothes were made from it. Before the 1960 jeans were called overalls. The name "jeans" was given to them by teenagers who turned jeans into sportswear and play clothes.
- Jean material was used to make work clothes in the 18th century. It was dyed with indigo. Indigo was taken from plants in the Americas and India, and it colored the jean material dark blue. The dark color was practical for work clothes.
 - The first jeans with rivets were made in 1873.

Jacob Davis bought denim from Levi Strauss and made pants. The miners liked the pants because they were strong. But a big problem with the miners' clothes were the pockets. They were easily torn away from the jeans. Rivets held the pockets and the jeans together and the pockets didn't tear.

Jacob didn't have the money to take out the patent for his invention so he asked Levi to hold the patent with him.

It was placing rivets in these traditional pants that made what we now call jeans.

E The first Levi's label was made in 1886. It had a picture of a pair of jeans and two horses. One horse pulled one leg to the right; the other horse pulled the other leg to the left. This was to advertise that Levi's jeans were very strong.

- 2a Read and translate the phrases.

a colony the British Empire Congress the Continental Army the Declaration of Independence protest against take command

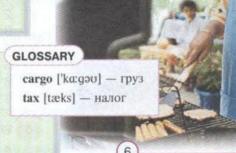

The War of Independence was over. Independence Day was made an official holiday.

The War of Independence began. George Washington took command of the Continental Army.

There were thirteen British colonies in the North American continent. They were part of the British Empire and they paid taxes to the British king, who was 3,000 miles away across the Atlantic.

The Declaration of Independence from Great Britain was signed by Congress. A new country, the United States of America, was started. The Declaration was read in public in every colony and people celebrated when they heard it.

Colonists threw a cargo of the East India Company tea into the sea in Boston. The East India Company was owned by Britain. The company was losing money. To save the company Britain raised the tax on tea in the colonies. Colonists protested against it.

The Flag of the United States

The first American flag was made by Betsy Ross during the War of Independence on January 1, 1776. It had seven red and six white stripes for the thirteen American colonies, and there were thirteen stars in

the field of blue in the corner. Now the flag has fifty stars for the fifty states. But the number of stripes is the same - thirteen.

The Statue of Liberty

The Statue of Liberty stands on an island in New York Harbor. It is a woman who holds a torch up high. It was put up in 1886. The statue was given to the United States by the people of France for the US hundredth birthday. It was a symbol of friendship between the two countries. Now the Statue of Liberty is a symbol of freedom for new immigrants to this country.

The Liberty Bell

The Liberty Bell rang out in July 1776 in Philadelphia, when the Declaration of Independence was signed by Congress. The great bell rang out at every event of national importance until it cracked in 1835. Now the bell is on display in Independence Hall in Philadelphia, but it never rings. The bell weighs over a ton and it is 12 feet wide at the bottom.

Lesson 1 Film favourites

1a Read and say what the children are writing about.

Wovies On Line

Melanie

Well, my favourite film was *The Matrix* — I couldn't take my eyes off the screen. I don't think there has been a film like it before. And I liked *The Craft*. It's a film about four girls who are witches. It wasn't a big hit, but I thought it was really **exciting**. *The Secret Garden* was sad, **touching**. I cried at the end. *X-Men*... I thought it was rubbish, and I was **bored**.

Tom

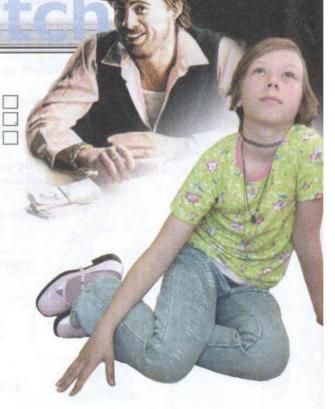

For me, The X-Men had really good fights. I liked that, and I liked James Marsden in it too. The Matrix was brilliant because it was so action-packed. Films with special effects like these can't be disappointing.

All my friends who saw it thought it was extremely impressive. As for The Craft, I must say I was extremely interested in it.

- 1b Read again and say if it is true (T) or false (F).
 - 1 Both teenagers like films with magic.
 - 2 Both teenagers liked one of the films very much.
 - 3 Both teenagers have similar opinions about the films.
- 1c Find the adjectives in bold in the text and answer the questions.
 - 1 Is "exciting" about Melanie or the film?
 - 2 Is "touching" about Melanie or the film?
 - 3 Is "bored" about Melanie or the film?
- 2 Translate the sentences into English.
 - 1 Он скучный.
 - 2 Ему скучно.

LOOK

The film was exciting.
I was excited to see it.

3 Choose the right form of the adjective.

Movies On Line

Zoe

I recommend *The Matrix* with Keanu Reeves. The acting is excellent. It's the best film this year. Usually, I'm not really (1) *interesting / interested* in gangster films, but I liked *Snatch*. It's a (2) *fascinating / fascinated* film, with Brad Pitt as the star. I hated the *Mr Bean* movie. It was just silly and (3) *boring / bored*.

SEND

- 4a Read the statements and say which of them expresses more feeling.
 - 1 It was exciting.
 - 2 It was really exciting.

esson 2 A film review

2a Read and find the right picture in Ex. 1a.

JUNGLE 2 JUNGLE

If you are looking for something relaxing, go and see Jungle 2 Jungle.

Have you ever thought that if a joke is funny first time round, it is even funnier the second? And this is not very new. Do you laugh when Tim Allen falls out of a hammock? Wait until he does it again! Do you laugh when he is bitten by a piranha? Wait until he puts his fingers back into the water later.

The comedy is directed by John Rusquin. The main parts are played by Tim Allen and Sam Huntingdon.

A businessman (Tim Allen) <u>comes</u> to the Amazon jungle because he <u>wants</u> to speak to his wife about their divorce. He <u>returns</u> home with a 13-year-old son (Sam Huntingdon) he never knew he had. The boy has lived with Indians deep in the Amazon region. Like *Crocodile Dundee*, the comedy centres on the adventures of a charming outsider in the New York jungle.

So, while the son learns that cats are not for eating and that an aquarium is not for fishing, Allen practises the art of using a blowpipe and starts to understand what is right and what is wrong in life, and finally becomes an excellent father.

The movie has a really funny story and extremely good acting, it raises smiles but never a lot of laughs. The comedy can be seen now at the Odeon.

 - 1 the history of cartoons
 - 2 steps in cartoon-making
 - 3 the life of an animator
- 1b Read and check your guess.

HOW TO BE AN ANIMATOR

Peter Lord and David Sproxton, who founded model **animation** studio Aardman, started animating when they were teenagers. Here is their advice about how to become an **animator**.

Start with an easy idea. Why not start with a simple **figure** drawn on a whiteboard? Or you could **animate** an **ordinary object**, like a lamp or a computer mouse. Then you need a story but keep it simple. Make a **storyboard** — a plan of each stage of your animation with drawings. It doesn't matter if you're not very good at drawing. The most important thing is that you have a **detailed** plan of what you're going to do.

Start with simple figures. The best material is **plasticine** because it is cheap, easy to find and easy to use. The easiest shape to make is a worm.

In the most successful animations the characters move in a realistic way. First, act out your character's movements. Then, move your models so that they copy the movements that you made.

The most important thing is to keep practising and having fun with animation.

1c Read the text again and put the steps of cartoon making in order.

- A The character is made into a model.
- B The movements you make are copied by the models.
- The stary is transferred into a stary board
- C The story is transformed into a storyboard.
- D An idea is formulated.
- E The character's movements are acted out.
- F The idea is put into a story.

2 Complete the chart and make sentences with the words.

Verb	Noun (person)	Noun
		animation

3 Put the verbs in brackets into the right form.

- 1 In cartoons, all sounds (create) in a very funny way.
- 2 Making models is quite a long process: first a model (make) in clay (глина).
- 3 Some models (operate) by hand.
- 4 Radio controls (use) for making the eyes move left and right.
- 5 How is a dinosaur (construct) on a computer?
- 6 Drawings in computer graphics (not make) with crayons or pencils.

a) You can find everything you dream about in cartoons.

Speaker 2

b) It's just kid's stuff.

Speaker 3

c) Cartoons are usually funny - usually, but not always.

d) It's extremely exciting when there are real actors in cartoons. e) Computer animation is really great!

Speaker 4 Speaker 5

f) Cartoon music is lovely.

- There is one extra statement.
- 4c Talk about what made a cartoon you have seen recently a success with you and what you were disappointed with.
- 5a Follow the steps to translate the sentence.

These days, Disney films need more than a good story.

1 Choose the best equivalents for the underlined words.

These days: a) эти дни

story: a) история

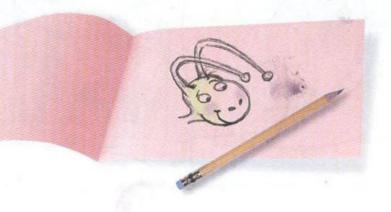

b) в эти дни

b) сюжет

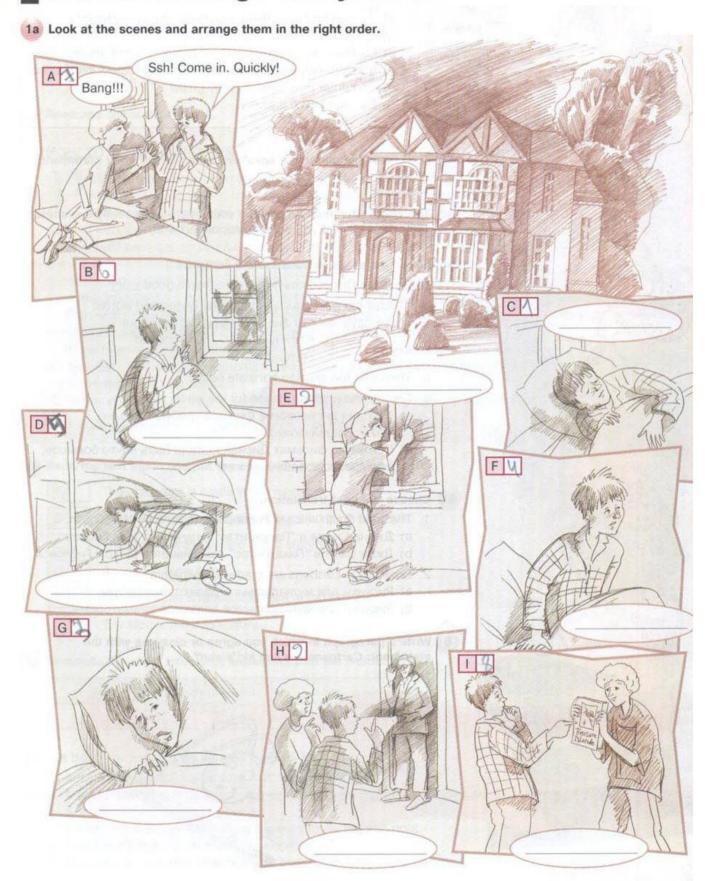

- с) сегодня
- 2 Think of a few ways to translate need.
- 3 Choose the best translation for the whole sentence.
 - а) Сегодня диснеевские фильмы требуют больше. чем хороший сюжет.
 - Сегодня в фильмах Диснея должно быть нечто большее, чем просто хороший сюжет.

5b Choose the best translation.

- 1 The John Smith voice in Pocahontas is done by Mel Gibson.
 - а) Джона Смита в "Пакахонтас" озвучивает Мел Гибсон.
 - b) Джон Смит в "Пакахонтас" озвучивается Мелом Гибсоном.
- 2 Drawings in cartoons are made by animators.
 - а) Рисунки для мультфильмов делают аниматоры.
 - b) Рисунки для мультфильмов делаются аниматорами.
- 6 Write a paragraph in which you agree or disagree with the statement: Cartoons are just kid's stuff.

esson 4 Making a storyboard

1b Read the description of the storyboard and check your answers in Ex. 1a.

A 12-year-old boy, Andy, is sleeping in his bed late at night when a loud knock at the window makes him jump up. He stares at the window and sees an extremely tall, dark figure outside.

Andy gets scared, slips deeper under the blanket and holds his breath. He hears Ralf calling his name. Andy opens the window with a loud bang and makes a sign to Ralf to be quiet.

Ralf has a book *Treasure Island* in his hand and wants to read it now, in the middle of the night. Andy is extremely surprised at his suggestion and asks Ralf to explain why. Ralf does not explain. He just asks for a torch. Andy gets down on his knees and looks for it under his bed.

Suddenly they see Andy's father with the torch in the doorway.

2a Match the right phrases to each scene.

C1 "Arghhh!"

2 "Andy, it's me, Ralf. Andy, let me in!"

3 "I can't see anything. It's too dark in here."

A 4 "I'm cold."

5 "Ssh! Come in. Quickly!"

6 "Are you crazy? Do you think it's the time to read a book?"

7 Bang!!!

M 8 "Dad!!!!"

"Don't be silly. I'll explain everything in a minute. Have you ever heard of treasure hunting?"

B 10 "Who's there?!"

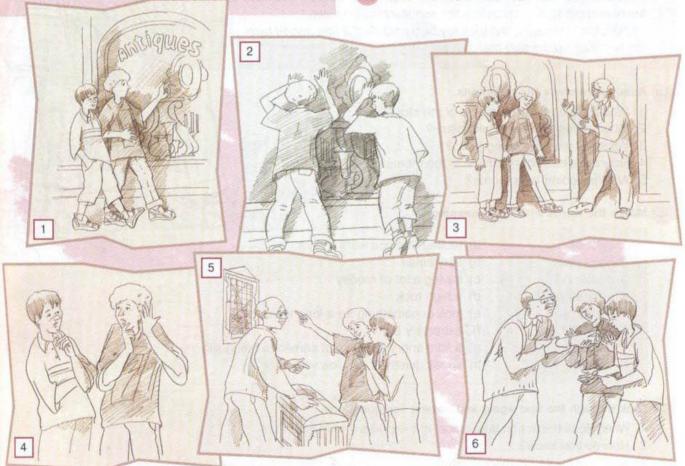

O11 "Have you got a torch?"

2b Think of what Andy's father could say in this situation if it is:

1 a horror film 2 a thriller 3 a comedy

2c Role play the scene.

3a Write a storyboard to go with the film scenes.

3b Write a description of the storyboard.

esson 5 Devil's Cliff

1a Read and say if it is:

1 a storyboard 2 part of a story 3 a film script

There we were. At last, I saw the Devil's Cliff — it was big, no, it was **huge!** And suddenly I felt sick, a lot of butterflies in my stomach. And I got thirsty. Maybe it was all the sun. There was a lot of sun, too much. I put my sunglasses on, but it did not work. I was **thirsty**, too thirsty to talk and too sick to climb the rock.

I poked Ralf in the side. He didn't pay any attention. He had one hand up to his forehead, shielding his eyes from the bright sun.

"It's great, it's really great," he muttered.

"Let's find some water, Ralf. I'd like some water."

"Not now," he said. He was looking up at the top of the cliff. I got angry.

"Not funny, Ralf. You want me to die here, don't you?" He didn't turn his head as he kept **staring** at the cliff. "Stop acting like you're a kid. Remember why we came here. There must be treasure here somewhere. We'll be **rich**, Andy, we'll be rich."

I couldn't tell him that all I wanted was to get on my bike and ride back home as fast as I could.

"Can I have a drink first?" I sounded firm, or at least I hoped I did. He seemed **irritated**, but at last I got his attention.

"Now, look," he said, pulling out the map I knew so well, "we have to hurry and get to the top before the sun starts to go down."

"Oh, no," I thought, but took my backpack and made myself take the first step up the **tiny** path.

1b Read and answer the questions.

- 1 Who are the main characters of the story?
- 2 Where does the action take place?
- 3 What are the boys going to do?
- 4 How does each of them feel at the moment?
- 5 Are they going to go home?

1c Match the words with their meaning.

- 1 cliff (n)
- 2 huge (adj)
- 3 mutter (v)
- 4 irritated (adi)
- 5 thirsty (adj)
- 6 tiny (adj)
- 7 rich (adj)
- 8 stare (v)

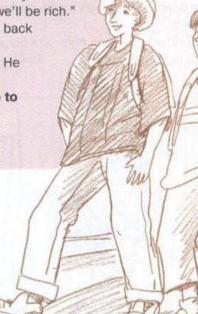

- a) feeling that you want a drink
- b) very small
- c) having a lot of money
- d) a high rock
- e) look at something for a long time
- f) extremely big
- g) a little angry because of someone being silly
- h) speak quietly or in a low voice

2 Look through the text again and answer the questions.

- 1 When does the action take place, in the present or in the past?
- 2 How do you know?
- 3 Are there quotation marks? Why?
- 4 Is there anything special in how the names of the characters, place and time are written?
- 5 How do you know how the speaker says the words?

I met ... at school on a grey Monday morning

for the lesson to start. It was geometry. So I

took out my pencil case, textbook and ruler

I didn't know his name yet. He asked, "Is

in November. I was sitting in class and waiting

and was doodling on the textbook cover when

I heard a boy's voice. I looked up and saw ...

anybody sitting here?" My friend Jordan was

ill that day and I was sitting alone. So I said,

"No." He sat down and started asking me all

kinds of questions about school, the teachers,

everything. I thought, "What a chatterbox!"

Then suddenly my pencil rolled off the desk

and got broken. ... gave me his sharpener and I don't know why, I felt that I knew him very well. We've been best friends since then.

- 3 How did you see each other?
- 4 What did you say to each other?
- 5 What happened next?
- 6 Why did you become friends?

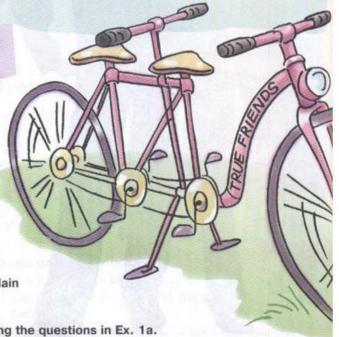

I met !! On my first day at a new school right before an English lesson. It was in winter. I was feeling nervous. I always do when I am in a new place. When I came into the class, there were about ten people there. They were chatting to each other and didn't even look at me. Then I saw ... She was sitting alone and she wasn't talking to anyone. So I went up to her and asked her about the time. She said it was nine o'clock and her voice wasn't very friendly. Then suddenly her pencil fell off the desk and got broken. I gave her my sharpener and then she smiled at me. It was a very nice, friendly smile. I sat down next to her and we started chatting. ... has been my best friend since then and I can talk to her about anything.

- 2a Read and answer: What is a win-win solution?

PSYCHOLOGY

FOR EVERYDAY USE

How to stop an argument

hat is the best way to stop an argument?
A solution that pleases both people.
A solution where both people get what they want, or get most of what they want. This type of solution is called a "win-win" solution because both people feel pleased, so they both win. For a win-win solution, both people must listen to and understand each other's ideas. They must also work out the problem fairly and find a compromise. This is the best way to stop an argument. But sometimes people can't listen to each other, and just argue to get only what they want. When that happens, the solution can be:

- win-lose one person gets what she / he wants but the other doesn't.
- lose-win the first person doesn't get what she / he wants but the other does.
- lose-lose neither person gets what she / he wants.

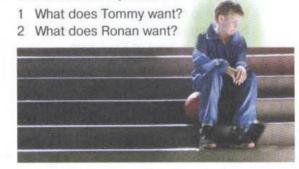

Sometimes a helper (or "mediator") helps people to work out a solution. Each person tells his / her story. The **mediator** asks questions to understand the problem behind the conflict and helps them to find the best solution to please both parties.

- 3a Read about Ronan and Tommy's argument and answer the questions.

Tommy asked Ronan to cheat in a test. Ronan said no, and told the teacher. Tommy got a zero, so he is angry with Ronan, because his basketball coach is going to take him off the school basketball team for bad marks. Tommy wants a good mark for this test because he wants to stay on the team. Just a week ago the coach made Tommy a **starter**. Tommy is very happy about it. Ronan is on the basketball team, too, but he is a **reserve** and starts the match on the bench. He wants to be a starter, too.

- 3b Think of the possible solutions to Tommy and Ronan's problem.
- 4 Substantial Listen and say which solution Ronan and Tommy chose.
 - Do you think it was a good solution? Why? / Why not?
- 5 Write about a problem with your parents, friends or classmates.

Lesson 8 Talk show Behind The Mask

1 Choose or think of some problem in your life. See the examples below.

- You often have arguments with your parents.
- You had an argument with your best friend.
- You are not happy with your appearance.
- ☐ Somebody is bullying you.
- ☐ You don't have enough time to do your homework.
- ☐ You are always late.
- □ ???

2 Write on a piece of paper about your problems.

- Try to give as much detail as possible.
- Change your handwriting write with your left hand or write it in capital letters.
- When everyone has finished, fold your paper and give it to the teacher who will mix up all the papers.

3 Prepare to talk about the problem.

- Pull out somebody else's problem and read it carefully.
- Try to understand the problem as fully as possible.
- Think how the person who wrote it feels about it.
- Think of how to describe this problem as if it were your own.
 Make any changes necessary. Use the first person "I..."

4 Play Talk show.

- Sit in a circle so that you can see everyone.
- Choose the first speaker. The speaker puts on the mask and talks about the problem on his / her piece of paper.
- Listen carefully to the speaker. Do not try to guess who wrote about this problem.

 Give your opinion on the problem. Provide some advice on how to solve it.

Past, present, future

Lesson 1 Things from the past

1b Read and check your guesses.

26 March

A light snow fell. Father has bought some fine wood to make a good wooden floor. Mother is happy.

GLOSSARY

design [dı'zaın] — here: рисунок, узор to look forward ['fo:wod] to something ждать чего-либо с нетерпением

his is a page from a diary written by an American boy in 1805. Why is the mother happy about a wooden floor? In those times many country houses had an earth floor, which was swept every day. Women sometimes made designs on the earth floor. A long stick was used for drawing, and the floor looked like a carpet. The "earth carpet" changed: on a birthday, for example, there was a birthday greeting near the fireplace. It was a lot of fun, but the family looked forward to having a hard, dry wooden floor.

2a Make as many sentences as you can using the tables.

--	--------------------------	----------	--

In the past feathers were used for writing.

2b Translate into English.

Карандаши делают из дерева. Карандашами рисуют и пишут.

3a Look at the objects and say what you think they were used for.

Example: I think Number Five was used for playing games.

- 3b Fill in the numbers of the objects.
 - Say which objects are still used today.
 - ... is made of wood. It was used for playing indoors.
- B) ... is made of glass. In some British homes it was hung in the window and was used for stopping "the evil eye" (дурной глаз).
- ... was used for washing clothes more than a hundred years ago.

... is made of wood. In the seventeenth century it was used for teaching children the alphabet.

... was used for talking to people who live far away.

... was used for playing music.

4a Listen to how people describe objects and find them in the picture.

Example: It's Number 9.

4b Describe the other objects in the picture.

Example: It is made of plastic. It is used for listening to music.

- 5a Write two or three descriptions of different objects and play Guessing Game with your friend in the next lesson.
- 5b Think of an interesting invention, and draw and describe it.

Example: This is a very clever machine. It is made of metal and plastic. It is used for finding things in your room. It can understand what you say. You say "socks" and it finds your socks in 30 seconds!

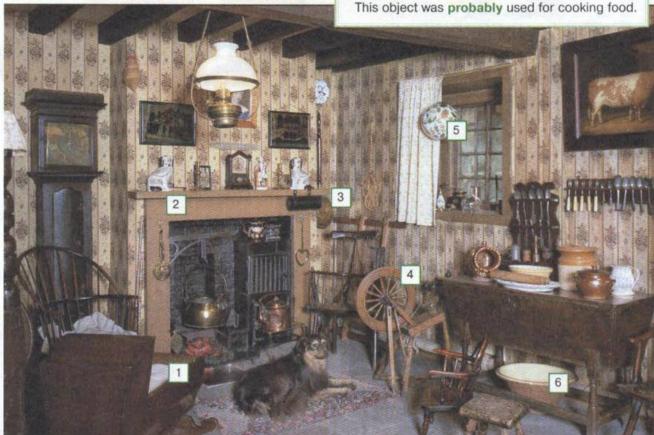

Lesson 2 Be a historian

- 1a Look at the picture and answer the questions.
 - 1 How old is the house?
 - 2 Was there any gas in the house? How did people cook / warm the room?
 - 3 How many rooms were there in the house?
 - 4 What were the objects in the picture used for?
 - 5 Which of them were made at home?

LOOK

Perhaps it was a farmer's house.

This object was probably used for cooking food

1b Read, find out the names of the objects and check your guesses.

This house is a typical Yorkshire home of the middle of the eighteenth century. There was usually only one room. The **fireplace** was the centre of family life. It was used for cooking, warming the room and heating water. People washed clothes and bathed in a **tin bath**. In cold weather hot coals were put in a **warming pan**, which was used for warming beds. Babies slept in a wooden **cradle**.

Most of the things in the room are homemade, such as a patchwork quilt on the bed or a wooden doll. Yarn was made on the **spinning wheel** and was used for making the family's clothes. The **witch ball** at the window was used for stopping "the evil eye".

GLOSSARY

coal - уголь

patchwork quilt — стеганое лоскутное одеяло

yarn — пряжа

the evil eye — дурной глаз

- 2 Look at the picture and make your "investigation".
 - Use perhaps and probably.
- 3a Imagine that you are going to send some objects to the 25th century in a time capsule.
 - Finish the notes.

This is money. It is used for buying things. It is made of metal or paper.

This is a computer.
At the beginning of the 21st century computers are used for...

This is a CD. ...

- 3b Add some more objects that you want to put in the time capsule.
 - Explain what they are used for.
- 4 Imagine that in the year 2400 some historians visit your room. What can they learn about you? Complete the report, write about five objects.

REPORT

Date: 24 March 2400

Name of the object	Description	
1 Telephone	It is made of plastic. It was probably used for talking to other people or for listening to music.	
2 Clock	It is made of metal and plastic. Perhaps it was used for doing sums.	

esson 3 Table manners

1 Match the pictures and phrases. Say what you should / shouldn't do at the table.

2a Read and put the paragraphs in the right order.

TABLE MANNERS

A 1

Do you hate sitting up straight at table? In the times of America's early settlers children didn't even sit at the table. They stood behind the adults and ate what was given to them.

GLOSSARY

settler n — поселенец

blow one's nose — сморкаться

spit v — плевать

stale adj — черствый

pot *n* — котел

allow v - разрешать, позволять

В

In 1530, a man named Erasmus wrote a book on manners. Erasmus told people not to blow their noses or spit at the table. In those days people didn't have plates. They used big pieces of stale bread. After the meal, the bread was given to poor people. Bones were thrown on the floor.

C

Table manners are even older than tables. The first rules appeared about 9,000 years ago. People ate from big pots. Men went first, then women and children. Sometimes they didn't use spoons. They just picked out pieces of meat with their fingers.

D

Later, children were allowed to sit at the table, but they couldn't speak or ask someone to give them something.

E

Later, new rules appeared. People learned not to lick their fingers, but to wipe them on the tablecloth. They were also told not to put their faces in their food. They are from plates, and everyone had his own cup. Bones were not thrown on the floor, but left on the plate.

b Find sentences from the text in Ex. 2a to match the pictures 1 to 4.

- 3a Say which of the old rules you find funny or weird.

 Example: People used to eat from big pots.

 People used big pots for cooking.
- 3b In pairs, make a list of differences and say how table manners used to be different from now.

 Example: People in the past used to eat with their fingers. We usually use a spoon, or a knife and a fork.
- 4 Translate the sentences.

 People used to eat with their hands. They didn't have plates and used pieces of stale bread.
- 5 Make a poster about table manners for your school canteen: Dos and Don'ts.

Example: Don't use...
Always eat...
You should...

You shouldn't...

esson 4 Tell me about the past

- 1a Look at the photo of Nancy Potter.
 - 1 When do you think the photo was taken?
 - 2 How old is the girl?
- 1b E Listen and check your guesses.
- 1c Listen again and say if the statements are true (T) or false (F).
 - 1 She learned about the war from a newspaper.
 - 2 She worked in a hospital.
 - 3 Working in a hospital was very difficult.
 - 4 Servicemen met their parents and girlfriends in the club.
 - 5 Nancy was in the services.
 - 6 She thinks she had an easy life.

- 1 "I heard it on the radio."
- 2 "I worked in a hospital in Boston."
- 3 "I didn't know there was so much pain in the world."
- 4 "We met people from different parts of the country."
- 5 "I had friends who were in the services."
- 6 "We grew up quickly because of the war."
- 7 "I thought about the war every day."
- 8 "We were very serious about life."

"It was a difficult time for me."

She said (that) it was a difficult time for her.

3 Read the interview published in a newspaper and say what Tina said to the journalist.

In 1939 Tina Johnson was in junior high school. Many boys from her class left school and joined the army. She said she wanted to join the army, too. She even wrote to the President and said she just wanted to go, but she didn't get any answer.

Example: In 1939 Tina was in junior high school. - "In 1939 I was in junior high school."

- 4 Brainstorm questions that you can ask adults about their life when they were your age.
 - Ask about:
 - □ their interests
 - □ the music they listened to
 - □ school
 - clothes
 - c etc.

5 Ask your older relatives about their life when they were your age and write what you have learned (8-10 sentences).

Example: Grandma said that discipline in her school was very strict.

esson 5 What does the future hold?

Lesson 6 School in the old days

- 1a Look at the picture and say what is happening and why the teacher is angry.
- 1b Read, check your guesses and answer the guestions.
 - 1 What's the boy's name?
 - 2 Who wrote the story?

When Tom came to the school-house, he came in quickly and took his seat. The teacher was sleeping in his armchair, but when Tom came in he woke up.

"Thomas Sawyer!"

Tom knew that when the teacher said his name in full, it meant problems.

"Sir!"

"Come up here. Now, sir, why are you late again, as usual?"

Tom wanted to lie, when he saw a new girl with long yellow hair; and by that girl was THE ONLY VACANT PLACE on the girls' side of the classroom. He said:

"I STOPPED TO TALK WITH HUCKLEBERRY FINN!"

The teacher opened his eyes wide. The pupils thought this boy was crazy. The teacher said:

"You - you did what?"

"Stopped to talk with Huckleberry Finn."

"Thomas Sawyer, this is the most unusual confession I have ever listened to. Take off your jacket."

The teacher took a stock of switches and worked with his arm until it was tired. Then he said.

"Now, sir, go and sit with the girls!"

Tom sat down beside the new girl. There was laughter and whispers in the room, but Tom sat still, with his arms upon the long desk before him, and looked into his book. Then he began talking to the girl.

"What's your name?"

"Becky Thatcher. What's yours? Oh, I know. It's Thomas Sawyer."

"I'm Tom when I'm good. You call me Tom, will you?"

"Yes."

- 1c Read the text in Ex. 1b again and answer the questions alongside the text.
- 2 Which of the following do you agree with?

Corporal punishment

- 1 was a quick and easy way to discipline pupils.
- 2 made people aggressive.
- 3 helped pupils to study better.
- 4 mustn't be used.

- How does Tom know that the teacher is angry with him?
- 2 Is Tom often late? How do you know?
- 3 Translate the words in bold, using the picture to help you.
- 4 Do boys and girls sit together? Find evidence in the text.
- 5 Why doesn't Tom lie to the teacher? How do you know?

- 2 Today it is not used in schools. However, many people think that corporal punishment was good because it disciplined children. When one of the class was punished, it was an example for the others, and so they were scared out of doing anything wrong.
- 3 But I think corporal punishment is a bad thing. It may make the person angry and aggressive. It also gives children a lot of bad memories about school.
- 4 I don't believe that corporal punishment will come back, because teachers will never agree to hit their pupils and because things have changed.

3b Read again and find the paragraph where the author:

- 1 makes a conclusion
- 2 gives his personal opinion
- 3 explains the problem
- 4 gives other people's opinions and says why they are wrong

 - f) also
 - g) however
 - h) because

- 1 to start an essay
- 2 to join ideas
- 3 to contrast ideas
- 4 to give your opinion

4 Look back at the text in Ex. 1b and answer the questions.

- 1 Do you like the idea of boys and girls sitting separately?
- 2 What is good and what is bad about it.

5 Write an essay about Sitting separately.

- Use the plan and the expressions in Ex. 3c.
- 1 Say whether boys and girls used to sit together in the past / whether they sit together in your school.
- 2 Say why some people think it's bad / good.
- 3 Say why you think it's good / bad.
- 4 Make a conclusion, say if you want boys and girls to sit separately in your class.

THE CASE OF THE RUINED ROSES

"That was a good programme on UFOs," said Nina to her cousin Max as they walked down the street. "It's amazing! UFOs were reported as early as 1800."

"That's pretty hard to believe," said Max. "Anyway, do you really believe there are such things?" Nina started to answer when they heard a loud scream coming from Coach Thornton's house. "Come on," shouted Max and they ran there. The coach was standing in front of his house and looking at ten rose bushes pulled from the ground.

"Look at that!" he cried. "Just look at that."

"That's terrible," cried Nina. "Do you know who ruined the roses?"

Coach Thornton looked upset. "I had to bench three of my best

football players for missing a class. They were pretty angry with me."

"First thing, let's get these roses back in the ground," said Max.

"Then we'll find out who did it."

Nina and Max helped Coach Thornton to replant the roses. Then he invited them in for milk and biscuits.

"Now," said Nina. "Am I right? You benched Sam Cartland, Mike Brooks and Alex Avery." "And you lost the game," added Max. "I know," said the coach. "But rules are rules. Do you think they ruined the roses?"

"I'm sure one of them did it," said Nina.

"Let's see," said Max after they left. "Coach said the roses were all right when he looked out at nine. But after ten, he found them pulled up." "So, we have to check who doesn't have an alibi for between nine and ten. Look!" Nina pointed. "There's Alex Avery over at the Dairy Bar."

"Hi, kids," said Alex as they came in. "Hello," said Max. "We didn't see you in the football game."

"I was benched but I guess the coach didn't have any choice."

"Can you tell us what you were doing between nine and ten this morning?" asked Nina.

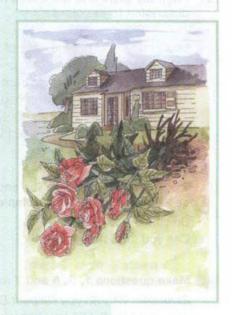

"I've been here since nine." He turned to the girl behind the bar counter. "Isn't that right, Amy?"

"Uh huh. You helped me to carry that heavy box."

"Have you been anywhere near Coach Thornton's house?" asked Max. Alex looked surprised. "No, I'm not going to visit him."

THE CASE OF THE ...

At the birthday party Peter decided to show his friends his treasure — a rare Egyptian stamp. He kept it in a black album in the living room. Fred said, "Wow! I'd love to have it in my collection!"

Roy who collected toy cars said, "If I were you, I'd sell it and buy a toy sports car."

Mike, the best football player at school, said, "Stamps are boring. Let's play football on the lawn."

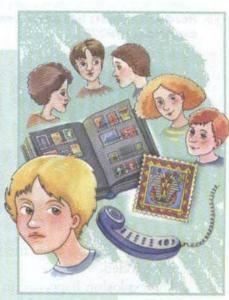

Laura said, "I can't play football. What about hide-and-seek?"

Jenny was still looking at the stamp and didn't hear Laura's words.

She said, "Oh, what a beauty! I love all beautiful things!"

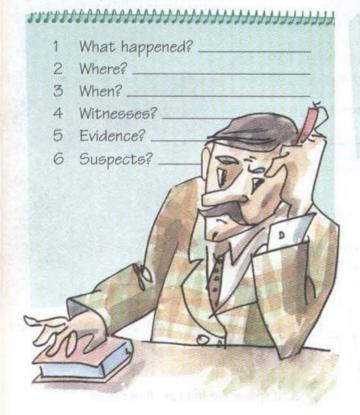

"OK," said Peter, "Let's play hide-and-seek. You hide and I'll look for you."

In the evening when they came back to the living room Peter saw his black album on the floor. It was open. His treasure, the rare Egyptian stamp, was not there! It was gone. Peter noticed some green grass on the floor when he was picking up his album. He called Detective Johnson and asked him to come.

esson 4 The Tunguska mystery

1a Read and answer: Has anyone explained the Tunguska explosion in 1908?

SIRERI MUSTERY

On 30 June, 1908, a huge fireball crossed the night sky and then exploded.

The explosion happened in Siberia, in Russia, in a place called Tunguska. It was very strong. Forty thousand trees in the region of the River Podkamennaya Tunguska were burned and hundreds of animals were killed. Shock waves from the explosion were detected in different places around the world: in England, Germany and America.

Since the explosion people in northern Siberia still watch glowing silver clouds in the night sky. In London you can easily read a newspaper at night. White nights are reported from other places in the British Isles and in Europe.

What exploded above the Tunguska forest? Why? There are no answers yet.

SIBERIAN MYSTERY 2

On September 25, 2002, in the north-east of the Irkutsk region in Russia, night turned suddenly into day. Witnesses saw a huge fireball fly very fast across the sky. They heard a loud noise and later there was an explosion. A message was sent to the Irkutsk Institute of Sun and Earth Physics of the Russian Academy of Sciences. The people asked the scientists to explain the strange explosion in their region. In October a group of Irkutsk scientists went to investigate the place where a meteorite fell on the night of September 25. They saw a lot of broken trees there but they could not find any pieces of the meteorite because of the snow. Scientists are going to visit this place again in June 2003 and explain what happened there. At the moment it is still a mystery.

Lesson 5 Mysteries of the world

1a Read and match the texts and the places on the map.

A

Brisbane Water National Park has a special secret. The Egyptian hieroglyphs are written on the walls of a rock which is 10 to 15 metres high. Who wrote the hieroglyphs? Why? Some scientists think that two men were in Egypt during the First World War and wrote the hieroglyphs after they came back to Australia. But other scientists think that the hieroglyphs were written by the ancient Egyptians, who discovered Australia when they sailed in search of new lands rich in minerals, metals and adventure. The answer is not yet clear.

В

Not long ago on the beach at Holme-next-the-Sea in Norfolk, English archaeologists discovered a circle of 55 oak timbers with an oak upside down in the centre. They have found out that "Seahenge" is 4,050 years old. Some scientists believe that it was used to communicate with the underworld or that it was used as a ceremonial site.

Why did ancient people build Seahenge? Why was it important to them? What instruments did they use at the very start of the Bronze Age? It is a mystery.

The Bermuda Triangle, or the Devil's Triangle, is in the Atlantic Ocean. Over the last sixty years more than fifty ships and twenty aeroplanes have disappeared without a <u>trace</u> there. Why did they disappear? Many reasons are given for their disappearance: tornadoes and other meteorological factors, huge sea creatures, transportation to other times and places, and even UFOs. But the Bermuda Triangle is still a mystery.

Lesson 6 Who built the Pyramids?

1a Read the text and answer the question: Do we know who built the Pyramids?

It is known that the Pyramids were built for the ancient pharaohs of Egypt. They were monuments to the pharaohs' greatness, filled with great treasures for the afterlife.

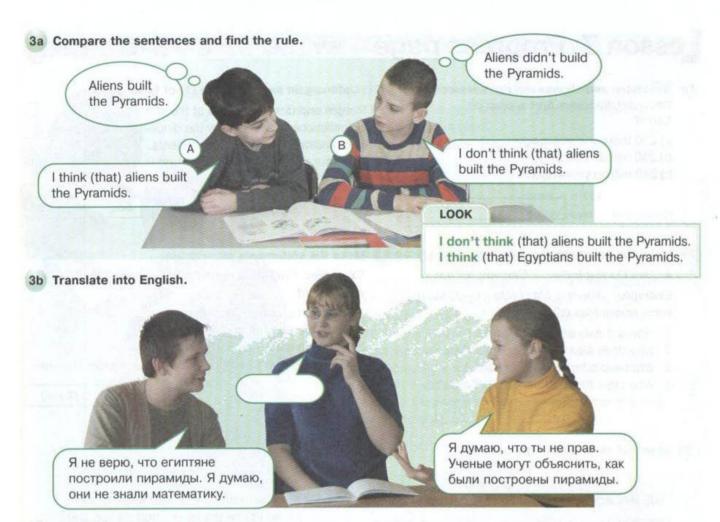

However, there are some mysteries about the Pyramids. Who built them? Some people believe that the Pyramids were built by humans. Others think that they were built by aliens who wanted to send people a message.

For thousands of years it has been a mystery. Today scientists and archaeologists can explain who built the Egyptian pyramids.

- 1b Who do you think built the Pyramids, aliens or Egyptians?
- 2a Listen to the interview and say what the famous archaeologist thinks about who built the Pyramids.
- 2b Read the statements and find evidence for or against in each statement that Professor Zahid really said.
 - More than one match is possible.

Statement		What the archeologist really said

4 Th	ne Pyramids were built 4,600 years ago.	D "Archaeologists found the bakeries where the Egyptians baked bread to feed the builders."			
	cientists cannot explain how the Egyptians uilt the Pyramids.	E "The builders worked for the king and called themselves 'Friends of Khufu'."			
	ne Egyptians wanted to take part in building e Pyramids.	F "The hieroglyphs tell us how the Egyptians worked."			

3c Change the teacher's statements into opinions using I don't think (that)...

Example: The Pyramids were not built by aliens.

I don't think that the Pyramids were built by aliens.

- 4 Read the letter to Young Scientist magazine and write your answer to it.
 - Use the notes to help you.

We know that the Pyramids of Ancient Egypt were built for the Egyptian pharaohs by armies of slaves. The Pyramids were built in such a way that they line up with certain stars and planets at certain times. It's really amazing! How did the slaves do it? Did they know about astronomy? Were they really humans? I'm sure the builders were aliens.

The Ancient Egyptians described their life in hieroglyphs. But why don't we know when and how they built the Pyramids?

- 2 Which planet has the most moons?
- 3 Which is the hottest planet? Can you say why?
- 4 Which planet has the longest year?
- 5 Which planet has the closest length of day to the Earth's?
- 6 Which planet has the shortest day?
- 7 Which is the smallest planet?
- 8 Which planet is nearly as large as the Earth?

2a Read the text and say which planet it is about.

his planet is the most mysterious planet in our solar system. It is the smallest and the coldest of all the nine planets. It takes 248 years to orbit the Sun, so its year is the longest. A day on this planet is longer than on Earth but shorter than on Mercury. It has as many moons as Mars. It is **nearly** as cold as Uranus.

There is no water or air on it, so there is no life there. This planet is the most **distant** planet from the Sun.

2b Read and translate the sentences.

- 1 Юпитер почти такой же холодный, как и Марс.
- День на Сатурне почти такой же длинный, как на Уране.
- 3 У Юпитера почти столько же лун, как и у Урана.

Lesson 2 What's the ISS?

 Read about why people explore space and say which ideas you agree with.

Example: I think people explore space because they want to know where the Earth and other planets came from.

- a) ... to know our planet better.
- b) ... to study our solar system better.
- c) ... to defend our planet from aliens.
- d) ... to meet aliens.
- e) ... to make our life safer.
- f) ... to create new technologies.
- g) ... to find new planets.

2a Do the guiz.

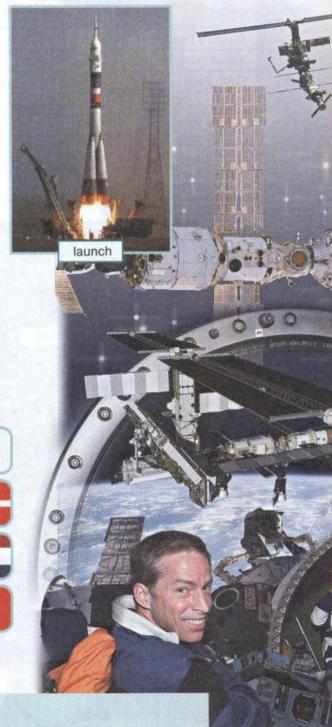

- 1 When was the International Space Station launched into space?
 - a) 1998 b) 1999 c) 2000
- 2 How many astronauts at a time can live and work there?
 - a) three b) five c) seven
- 3 How many countries are building the station? a) 10 b) 16 c) 20
- 4 Look at the flags. Which countries are they?

2b Read the text about the ISS and check your answers in the quiz.

THE ISS

he International Space Station is a world programme. Sixteen countries are working together to build the ISS: Russia, the United States, Canada, Japan, Brazil, and the nations of the European Space **Agency** (Belgium, Britain, Denmark, France, Germany, Italy, the Netherlands, Norway, Spain, Sweden and Switzerland).

The countries are constructing the ISS piece by piece in space. It is very big and heavy, so they can only **construct** it in **microgravity**. The first part of the ISS was *Zarya*, the control **module**, which was built by Russia. It was launched into orbit by Proton rocket from Baikonur Cosmodrome on 20 November 1998. A few weeks later the US module *Unity* was launched. The two modules were **connected** in space. This was the beginning of a space station that will have more than 70 parts, and where seven astronauts will live and work. But while building is going on, only three astronauts will live and work on the station.

The station begins a new **era** in space **exploration**. The ISS will orbit the Earth, and people will live and work in space for **several** months. The station will be an orbital laboratory for scientific research in physics, chemistry, biology, medicine, human physiology, space and Earth science. We will learn many new things about how to live in space. And one day this new knowledge will help us to **explore** other parts of our solar system.

- 3 Answer the questions.
 - 1 Why is the ISS a world programme?
 - 2 Why is the ISS being constructed piece by piece in space?
 - 3 Why does the station begin a new era in space exploration?
- 4 Look through the text again and say what was interesting for you.

Example: It was interesting for me to know that 16 countries are building the ISS.

5 Read and say how space research will change our life in future.

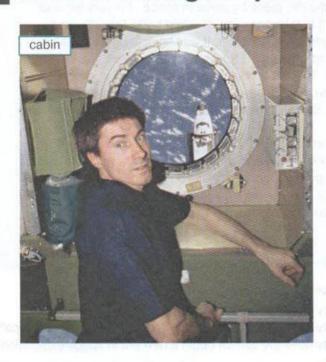

Example: create new materials — Space research will help to create new materials.

- 1 space research / make new medicine
- 2 people / make friends with aliens
- 3 space technologies / develop more powerful computer chips
- 4 space research / change the weather
- 5 we / have new professions in space and on Earth
- 6 the ISS / solve the Bermuda Triangle mystery
- 6 You are a young researcher working on the ISS. Complete an article for a children's magazine about how your research work will change life on Earth.

We are living and working on the ISS now.
We are doing lots of experiments. They are very important for our future here on Earth...

... So I believe there will be great changes in our lives soon.

Lesson 3 Living in space

- 1a Read the text and choose the best title.
 - 1 Watching the Earth
 - 2 Space sleep
 - 3 Eating in space

After a long day at work, just like on Earth, a worker in space goes to bed at night, then wakes up the next day and prepares for work all over again. There are a few differences, though.

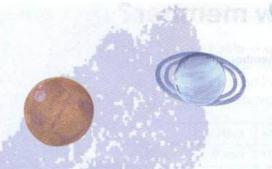

In space there is no up or down and there is no gravity. As a result, astronauts are weightless and can sleep in any position. However, they have to attach themselves to a wall, a seat or a bed inside the crew cabin so they don't float around.

Space station crews usually sleep in sleeping bags. On the space station there are two small crew cabins. Each one is just big enough for one person. Inside both crew cabins is a sleeping bag and a large window to look out into space. Now, space station crews have three astronauts living and working in space for months at a time. Where does the third astronaut sleep? He / she can sleep anywhere in the space station, they just attach themselves to something.

Expedition Two commander Yury Usachev and flight engineer James Voss slept in the crew cabins inside the Zvezda service module. Flight engineer Susan Helms slept inside the Destiny Laboratory.

Usually, astronauts sleep for eight hours at the end of each day. When it is time to wake up, the space station crew uses an alarm clock.

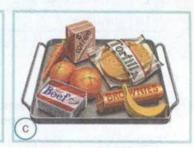

- 1b Read the text again and answer the questions.
 - 1 How long do astronauts sleep?
 - 2 Where do they usually sleep?
 - 3 What do they have to do before they go to sleep?
 - 4 How many crew cabins are there on the ISS?
 - 5 Where does the third astronaut sleep?
 - 6 What helps them to wake up?
 - 7 What is the difference between sleeping in space and sleeping on the Earth?
- 2a Look at the food trays and say which one is for an astronaut.

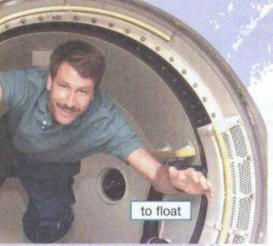

2c Listen to the interview again and say true (T) or false (F).

Lesson 4 Could you be a crew member?

1a Read the words and find out who can be chosen to be a crew member.

Α	can communicate in different languages	
В	can speak and read English and Russian	
C	can work in a team	
D	ambitious	
E	experienced	
F	flvexible	

G	friendly
Н	healthy
1	honest
J	intelligent
K	kind
L	reliable

1b Choose the three most important things for being a crew member in the list in Ex. 1a and report to the class.

Example: We think the most important thing is that he / she can work in a team. Then... And finally...

- 2 Substant to Charles Precourt, one of NASA's chief astronauts, talking about the requirements to be a crew member and tick them in the list.
- 3a Read and say who would be the best crew member.

Martin — speaks English and Russian very well, intelligent and experienced, hard-working and ambitious, works best on his own, strong and healthy.

Pablo — speaks and reads Spanish and Russian very well, works best in a group, kind and friendly, honest, reliable and well-trained, a good athlete.

Alex — speaks and reads English, Italian and Russian, never gets scared in dangerous situations, healthy and sporty, a good friend, likes to help other people.

3b Decide who would be the best crew member in your group.

GLOSSARY

emergency [i'm3:фənsi] — экстренный nearby ['nɪəbai] — соседний

We have built a lot of space cities. *The City of Stars* is one of them.

It is a very big city. Two thousand people live here. There are two

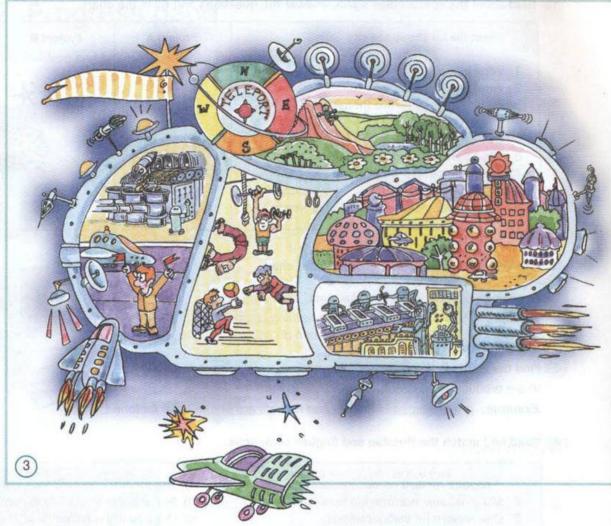

spaceports in the city. The first one is the main one and the second is an emergency one. You can get to any place in the city by teleportation or by railroad. The teleports are in every area. People travel by teleportation. The railroad is for transporting things.

We want people to have a comfortable, healthy life in the city. There is a big zero-gravity sports centre and a stadium. People can play space volleyball, basketball or other games here.

There are a lot of factories in the city where robots work. Rockets take minerals from nearby planets to the factories, and the factories make many useful things. The City of Stars has also got factories, where robots and rockets are made and repaired. Nothing is thrown away in our city, everything is recycled. The air and water are purified, so we breathe clean air and drink clean water.

Lasers defend the city. If unfriendly alien spaceships come to the city, the lasers will exterminate them.

В

The city where we live is called *Fruitilla 5*. It looks like a **giant** red apple turning in space. The apple has a spaceport. It is opened when rockets arrive or leave. You can get anywhere in the city by SFM (Special Flying Machine) and it doesn't take very long. There are special **levels** inside the apple.

There is a space port on the first level. On the second level there are three farms where all kinds of vegetable, crops and fruit are grown. There are a lot of things to do and places to go in our city, for example a theatre, a cinema, a zoo and some discos. The city has also got a lot of shops and hotels.

There are a thousand people in *Fruitilla 5* and we all live on the third level. Our houses look like **exotic** fruits. The climate here is very nice and the life here is the same as on Earth. Giant mirrors collect energy and direct **sunlight** onto the apple, so we have a forest and a great park where people walk, a river and some lakes, just like on Earth, so we can go swimming. All the water in the city is purified and recycled again and again.

The people in our city are very friendly and helpful. They come from different countries, but they can easily communicate with each other. When people are thirty, they have a special injection. They never get old after that. It is **incredible** to think that a hundred years ago on Earth people became old and then died.

THE MOON

1

The Moon is a natural satellite of the Earth. It was called Luna by the Romans, Selena and Artemis by the Greeks. It is the second brightest object in the sky after the Sun.

The Soviet spacecraft Luna-2 flew round the Moon in 1959. The same year Luna-3 photographed the far side of the Moon. The first landing was on July 20, 1969. The American astronauts Neil Armstrong and Edwin Aldrin were the first men to step onto the Moon.

3

The Moon has no atmosphere. But perhaps there could be water or ice in some deep craters near the Moon's poles. The Moon's gravity is six times weaker than on Earth; a man who weighs 120 kg on Earth weighs only 20 kg on the Moon.

4

The Apollo and Luna missions brought 382 kg of rocks to the Earth. They will help to discover the history of the Moon, the Earth and the solar system.

DESIGN YOUR OWN SPACE CITY AND WIN A PRIZE

Space City Design Competition

is looking for talented young people from 13 to 15 years old from all over the world.

How do you imagine your space home?

Please brainstorm your ideas and write to us about your space city. What will it be like? What will life in your city be like?

Prize: Free one-week trip to the ISS or to the Space Flight Control Centre. **Closing date:** one week after the publication of the information.

- Read the information about the competition and prepare your design project.
 - Work on your own or with your friends.
 - Write your design in the form of a leaflet or a poster.
 - Describe your space city (see Lesson 6).
 - Use the fact file.
 - Draw a plan or make a model of your space colony.
- 2 Present your project to the class.
 - Decide who will present each part of your project to the judges of the competition.
 - Talk, do not read.
- 3 Listen to the candidates' presentations and think of questions to find out details.
- 4 Fill in the evaluation card to choose the best space city design.

₹10 Welcome to Russia

Lesson 1 Beautiful and amazing

- 1a Look at the titles of the texts in Ex. 1b and say which text can tell you about:
 - 1 the people of Russia
 - 2 the biggest cities of our country
 - 3 Russia's nature and animals
 - 4 the weather in different parts of Russia
- 1b Read the texts and check your answers.

A Scenery and wildlife

The scenery of Russia is **diverse** and amazing. There are many large forests, high mountains, **impressive** rivers and beautiful lakes. Russia is also famous for its **vast** steppes and the tundra, "the cold desert" which is in the **extreme** north. The wildlife and flora are very rich, and the **birch** tree and the **bear** have become the symbols of Russia.

B Population

Russia is home to nearly 150 million people from different groups. More than a hundred **ethnic groups** live in Russia. Eighty-five per cent of the population is Russian. There are also about 5.5 million Tatars, 4.4 million Ukrainians and the ethnic groups of the Volga region, Germans and others. They all speak Russian, but every ethnic group has its **own** language and **culture**.

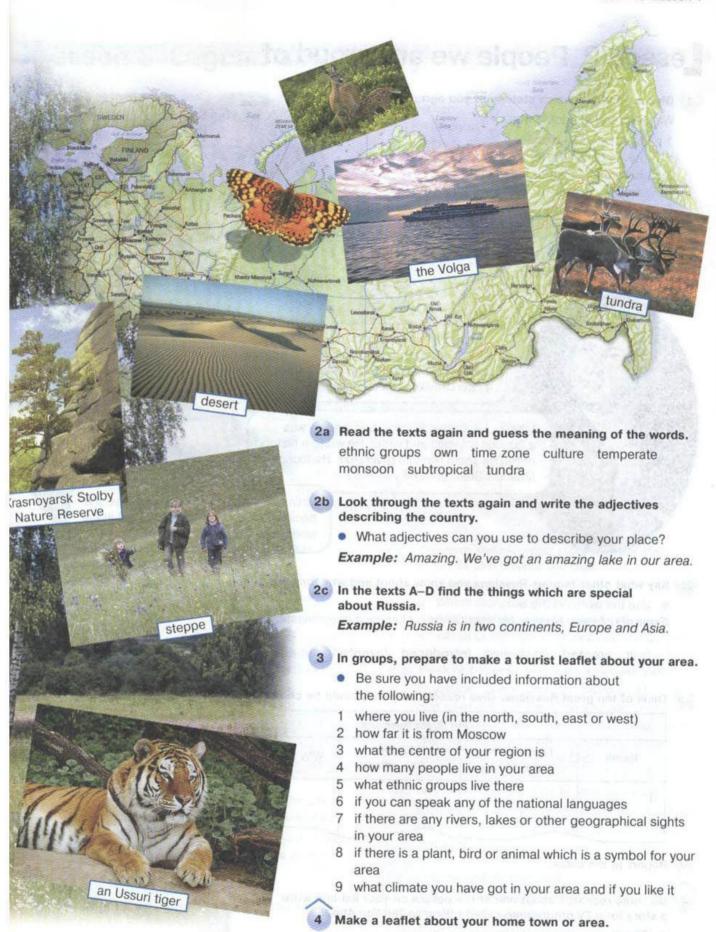

C Climate

Russia is a very large country and lies both in Europe and Asia. It stretches across eleven **time zones** and includes many types of climate. It has a **tundra** climate in the north, with very cold, snowy winters and short, cool summers. Verkhoyansk in Siberia is one of the coldest places in the world (–70 °C). Most of Russia has a **temperate** climate with cold winters and hot summers. The southern part of Russia in the Far East has a **monsoon** climate with lots of rain, and on the Black Sea the climate is **subtropical**.

D Cities

Moscow is the capital of the Russian Federation. It's one of the biggest and most beautiful cities in the world. With a population of more than 13 million people, it is the biggest city of Russia.

St Petersburg is the second biggest city. With its **magnificent** buildings and romantic atmosphere, it's really a living museum. There are eleven more cities with a population of more than one million people. Vladivostok, Kaliningrad, Novorossíysk and Murmansk are the country's main ports.

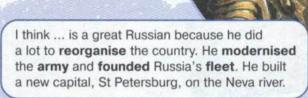

Lesson 2 People we are proud of

1) Discuss and say which statement you agree with.

We are proud of people who ...

- 1 ...have become heroes.
- 2 ...have achieved a lot in their profession or career.
- 3 ...have done a lot for their country.
- 4 ... are very rich.
- 5 ...travel around the world a lot.
- 6 ...do exciting and unusual things.
- 2a Look at the pictures, read and say who these people are and why they are famous.

I think ... is a great Russian because he was a famous scientist and writer. He wrote a history of Russia and a Russian **grammar**. He founded Moscow State University in 1755.

I think ... is a great Russian because she became the first **female** astronaut in the world. She orbited the Earth 48 times.

Use the words in the box.

Example: Alexey Nemov. He's an Olympic champion in gymnastics.

esson 3 Legend and history

- 1 Look at the picture and answer the questions.
 - 1 What do you see in the picture?
 - 2 What is unusual about it?
 - 3 Where is the town?
 - 4 What do you think happened to the town?

Perhaps... Probably... I think... I don't think...

- 2 Eisten to the legend and find out what happened to the town.
- 3a Read the sentences and put them in order to make a story.
 - A Khan Batiy left the horrible place.
 - B Prince Vsevolod, Yury's son, led his army at the battle of Kerzhenets, but the Tatars defeated and killed all the warriors.
 - C Since then only really good and kind people can find the way to Kitezh Grad.
 - D Prince Yury built the city of Kitezh on the shore of Lake Svetloyar. He made the city beautiful and rich.
 - E When the Tatars came to the lake, the city suddenly disappeared; it became invisible.
 - F When Tatar Khan Batiy came to Rus, he wanted to conquer Kitezh, rob it and take all the people prisoner.
- 3b Su Listen to the legend and check the answer.

- 4 Compare the recorded story and the story in Ex. 3a and answer the questions.
 - 1 How are the stories different?
 - 2 Which story is more interesting?
 - 3 Which story has more detail in it?
 - 4 Which characters are more like real people?
- 5a Think of a legend and write a summary of it.

Example: Two young men loved a girl. She loved both of them too and she couldn't choose one of them. Then a miracle happened. The girl became a river and the young men became the banks of the river.

5b Add some descriptions to your summary.

Example: Many years ago there were two young men. Both of them were strong, handsome and kind...

- 6 Choose and do one task.
 - 1 Finish the legend in Ex. 5b.
 - 2 Write your own legend.
 - 3 Write a legend from your home town.

Lesson 4 My home town is famous for...

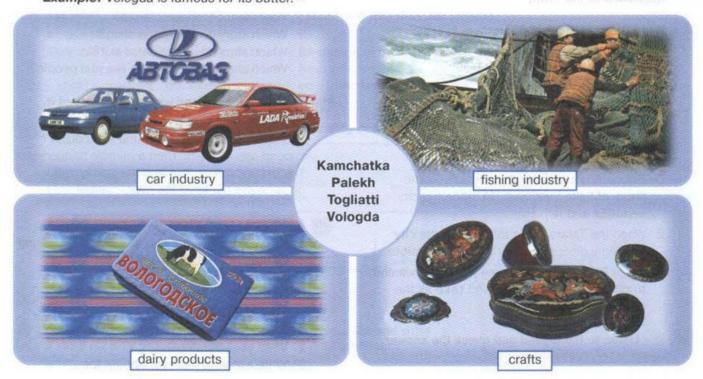

1a Look at these things and say what souvenir you would choose for your foreign friend.

Example: I'd choose a matryoshka. It's really Russian and it's funny.

- 1b Say what other typical Russian souvenirs you know.
- 2 Look at the pictures and say what these places are famous for.

 Example: Vologda is famous for its butter.

- 3 Read the texts and find the answers to the questions.
 - 1 What is the place famous for?
 - 2 When did the industry start?
 - 3 What is the thing made from?
 - 4 What is it used for?

Gzhel, a small town 50 km from Moscow, is famous for its porcelain. People started making pottery there in the fourteeth century. The name Gzhel comes from the Russian verb zhech, which means burn. Gzhel porcelain is made from clay. Vases, tea sets and coffee sets made of blue and white Gzhel porcelain are extremely popular. They make a nice present for anyone.

Samara on the Volga river is famous for its chocolate. Since 1970 Russians have enjoyed the excellent chocolate made by the *Rossia* Chocolate Factory. Every year it produces more than 30,000 tonnes of chocolate bars, sweets and boxes of chocolates of more than a hundred types. Rossia chocolate is made from the best Brazilian cocoa beans. It is really delicious. It makes a good present for children and adults.

- 4a Read the sentences, answer the questions and explain the difference.
 - 1 Porcelain is made from clay.
 - 2 Vases are made of porcelain.
- a) If you see or touch some porcelain, can you say what material is used to make it?
- b) If you see or touch a vase, can you say what material is used to make it?
- 4b Complete the sentences with of or from.
 - 1 Glass is made ... sand.
 - 2 The table is made ... wood.
 - 3 My skirt is made ... leather.
 - 4 Cheese is made ... milk.
- 5a Tell a visitor what your home town is famous for.
 - Use questions in Ex. 3a as a plan.

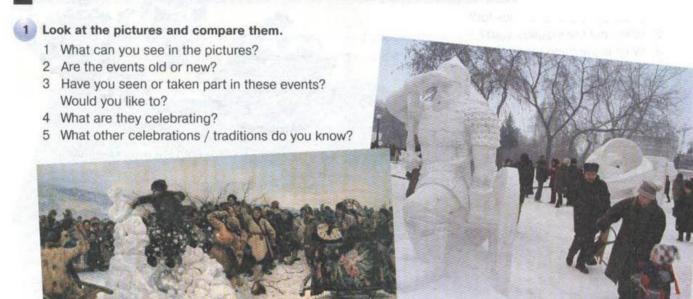

LOOK

Teacups are **made of** porcelain.

Chocolate is **made from** cocoa beans.

- 5b Read the results of your group work to the class.
- 6 Present something your area is famous for.
 Write your story in the form of:
 - a leaflet
 - a newspaper advert
 - a story on an Internet website

ploughing [plauɪŋ] — пахота

It's June again and I've just finished taking part in Sabantui — the traditional Tatar festival that celebrates the end of spring ploughing.

I love Sabantui because it's noisy, colourful and exciting. The streets of Kazan are crowded with people wearing traditional costumes. This year I watched Udmurts, Chuvashes, Maries, Bashkirs and Russians in national dress sing and do traditional dances.

There are **sack races**, wrestling and **tug-of-war** competitions, and lots of games with prizes. I tried my hand at a traditional one called "break the pot". With your eyes closed, you throw a ball at a **pot**. If you break the pot, you get a prize. I didn't this time, but I'll be back to try again next year.

The grand finale of the day is the horse racing.

Anyone can take part. Last year my brother took part and came second. The celebrations end when the prizes are presented. The winners of the wrestling and horse racing get traditional prizes: six sheep and a car!

Then Sabantui is over for another year — and I'm looking forward to next year's Sabantui... and another **chance** to break a pot!

15 May 2003

Dear Betty.

It's nice to hear you, your mum and dad and your brother are coming to visit Russia. You can stay with my family in our house.

It's nice here at any time of the year, but I think July is the best time to come. It's usually hot, although there may be some rain. My home is near the Volga, so we can go swimming and sunbathing every day, and can go walking and have a picnic in the woods near the town.

I know you like sightseeing, so you'll be pleased to hear there are a lot of beautiful old churches and monasteries in Yaroslavl as well as a medieval kremlin.

What's more, we can go on a boat trip up or down the Volga and admire the beauty of the river banks. There's a disco there! I know you like dancing. You can take pictures and buy lots of souvenirs. If your brother and dad like fishing, they'll love fishing in the Volga. Fishing is my father's favourite activity. Hope to hear from you soon.

Best wishes.

Nastva

3b Read the letter again and answer the questions.

- 1 How big is Betty's family?
- 2 Have they decided the date of their visit to Russia yet?
- 3 What is Nastya's favourite season?
- 4 What interesting places are there in or near Nastya's town?
- 5 What can Nastya's guests do and see?
- 6 What activities do you think they would like best?

3c Say if you would like to visit Nastya and why.

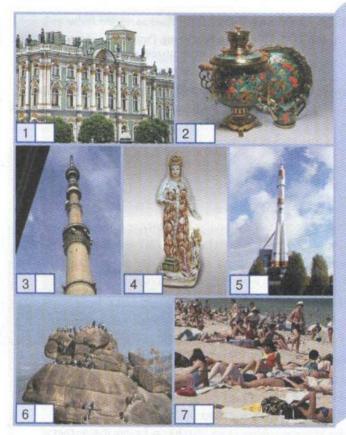

3d Discuss and say what you would show Nastya if she came to see you.

Example: We can take her to the lake. It's very beautiful. And we can go swimming and boating there.

Write an invitation letter to your friend.

- Read the text and answer the questions.
 - 1 Why is Baikal a unique lake?
 - 2 What activities could you do if you went to Lake Baikal?

BAIKAL, THE PEARL OF SIBERIA

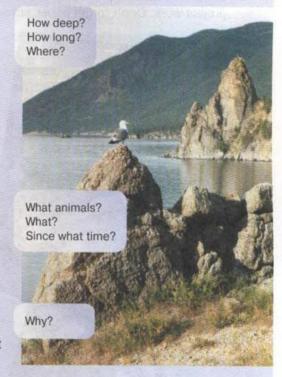

aikal is the largest lake in Eurasia (636 km long and almost 80 km wide), and it is the deepest lake in the world (1,620 metres). The lake is one of the world's most impressive natural wonders, and rightfully so - Baikal is so large that all of the rivers on Earth combined would take an entire year to fill it.

Baikal is situated in a very beautiful place, surrounded by forests and the Barguzin Mountains. In the winter Baikal freezes over, with ice so thick that you can go sleighing on the lake. In the summer, its crystal blue waters are transparent to a depth of forty metres, and there are many seasonal wildflowers by the side of the lake. Boat tours during the warm months and hiking in the forest, along the streams and waterfalls of Baikal's parks, are very popular. The lake region is home to a great variety of plants and animals, most of which - like nerpas and the omul salmon — are found nowhere else in the world.

Lake Baikal long ago became famous for the purity of its water. Since 1992, Lake Baikal and the entire surrounding area have become a national park, and today Baikal is a naturalist's paradise and an idyllic holiday area. With fine beaches, excellent hiking, birdwatching, and pleasure boating, Baikal is one of the most attractive tourist areas in Asia.

Lesson 8 Planning a trip

Read about the people and say who is who in the photos.

- 1 Mo Wilson likes travelling very much. She also likes going shopping and buying souvenirs for her friends. She likes painting a lot.
- 2 Bobby Hard is crazy about sports and outdoor activities. He loves music too.
- 3 Milly Green is fond of reading. She is interested in history, national custumes and traditions.
- 4 Steve Green likes nature and wildlife. His hobby is bird-watching. He also likes fishing.

3 Planning a trip.

Bobby Hard, Mo Wilson and Milly and Steve Green are coming to Russia. They have only a four-hour stay in your home town.

 Decide what things you could show your guests in your home town. Think about their interests and needs and what activities they can do there.

Example:

- A. There's a small mountain on the way, so we can climb to the top and see a beautiful panorama of the town.
- B. Let's visit the supermarket on the way, so Mo can buy some lace or Palekh boxes for her friends.
- C. There's a history museum here, so we can see an exhibition of national costumes there.
- Draw a plan of your area and work out a route.
- Give reasons for your choice.

4 Present your project work to the class.

- Decide who will present each part of your project to the class.
- Put your trip poster on the blackboard or the wall so everyone can see it.
- Speak loudly and clearly. Don't read your notes if you want to be a success.
- 5 Listen to your friends' presentations and choose the most interesting route for your foreign guests.

Unit 4 Lesson 6

6b Read about thanksgiving and powwow and make files about these festivals.

THE POWWOW ['pauwau]

he Powwow is a Native American gathering. It focuses on dance, song and family celebration. Traditionally, it is a celebration where one tribe welcomes and honors others. Powwows are usually three-day weekend events, and people may travel great distances to see a powwow. The main powwow season is summer. All people (not just Native Americans) are welcome at powwows.

RIXEORYLLAGO RIXECTIVACIA – Curibiliguesikwww.

There are several different kinds of powwows. The two most common kinds are traditional and competition powwows. In traditional powwows everyone who takes part in the dance or singing gets some "day money." A competition powwow has much bigger prize-money for the dancers. Everyone can compete and dance, but only the dancers who take the top places receive prize money. Drum groups also compete for prize money.

Judges judge dancers on their style and form, regalia, and ability to stay in time with the drum and stop on the final beat.

GLOSSARY

THANKSGIVING

n the fourth Thursday in November, in houses around the United States, families get together for a large meal. Almost all families eat turkey and cranberry sauce for this meal, and have pumpkin pie for dessert. This is a very special day, the holiday of Thanksgiving.

In 1620 the Pilgrims made a difficult trip across the ocean from England. They landed in what is now Massachusetts. In England the Pilgrims couldn't practice their religion. So they went to the New World in search of religious freedom. The Pilgrims' first winter was very hard, almost half of the group died of cold, hunger, and disease.

But the native Americans of Massachusetts (formerly known as "Indians") taught the Pilgrims to plant corn, to hunt and to fish. When the next fall came, the Pilgrims had plenty of food. They were thankful and had a feast to give thanks. They invited the Native Americans to join them. This was the first Thanksgiving. It became a national holiday many years later.

How much is Thanksgiving today like the Pilgrims' Thanksgiving? In many ways it is different. For example, historians think that the Pilgrims ate deer, not turkey. But the idea of Thanksgiving is the same: it is a day to give thanks.

GLOSSARY

turkey ['tɔːkɪ] *n* —индейка cranberry sauce ['krænbərī sɔːs] — клюквенный соус pumpkin pie — тыквенный пирог disease [dɪˈziːz] *n* — болезнь corn *AmE* — кукуруза fall *AmE* — осень feast ['fiːst] — пир, праздничный обед

Unit 8 Lesson 3

Read the solution to the mystery.

Jenny took Peter's stamp. She couldn't see Fred from the bushes behind the house.

Then she said she ran across the lawn so she was hiding in the bushes in the far corner of the garden.

There was some grass on the floor in the living room. Jenny got some grass on her shoes when she was running. She came back to the room first and took the stamp when Peter was looking for Mike and Laura, and Fred and Roy were looking for the keys.

Unit 8 Lesson 3

2b In pairs, complete the second part of the mystery.

Detective Johnson looked around and saw some grass on the carpet in the living room. He didn't say anything about it and decided to talk to each of the children.

"OK, Laura," he said." Can you tell me (1) ...?"

"Well, Mike and I were hiding (2) Peter found us there," said Laura.

"Thank you. Now you, Fred. (3) ...? (4) Did you see anybody else around?"

"Yes," said Fred, "I saw Roy (6) Later I helped him to look for his keys. When we came to the house, everybody was there."

"All right, thank you. Now you, Jenny. (7) ...?"

(8) ... said Jenny.

"Did you see Mike or Laura?"

"No, I didn't," said Jenny. "But I saw Fred behind the tree."

"OK. Did you see who came back to the house first?"

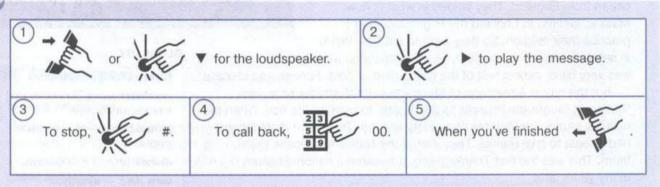

"Fred came first, I think. I ran very fast across the lawn but I came second."

"Thank you, Jenny. Now I know who took your stamp, Peter," said Detective Johnson and looked at one of the children.

Грамматический справочник

UNIT 1

Requests (Просьбы)

Если ты хочешь вежливо попросить, особенно незнакомых людей или людей старше тебя, используй *Can you...?* и *Do you think you could...?* Например,

Do you think you could show me the way? (Не могли бы Вы показать дорогу?) Can / Could you give me your pen for a minute? (Дайте, пожалуйста, ручку на минутку.)

No + V + inq

На запрещающих знаках и объявлениях можно часто увидеть фразы вида **No** + **V** + **ing**. Например,

NO PARKING

(Парковка запрещена)

Pronouns (Местоимения)

Используй эти местоимения после таких глаголов, как see, help, like, и таких предлогов, как with, for, at. Например,

My mother is cooking dinner. I am helping her. These flowers are beautiful. Look at them.

Кто? Что?	-1	you	he	she	it	we	they
Кого? Кому? Кем? О ком? Чего? Чему? Чем? Что? О чем?	me	you	him	her	it	us	them

Want somebody to do something

Если ты хочешь, чтобы для тебя что-то сделали, используй конструкцию want somebody to do something. В русском языке вместо неопределенной формы глагола to do используется придаточное предложение с союзом чтобы. Например,

I want **him to go there**. (Я хочу, **чтобы он сходил туда**.)

UNIT 2

So... / Neither...

Если ты хочешь сказать U я тоже, то есть, ты любишь то же, что и твой собеседник, умеешь делать то же, что и твой собеседник, используй $So \dots I.$ — So do I. / So am I. / So would I. / So can I. / So should I.

Выбери подходящий глагол. Например,

Stephen: I like running.
Pete: So do I. (И я тоже.)
Pete: I can play ping pong.
Stephen: So can I. (И я тоже.)

So Neither	do does am is are did have has would can	I / you / we / they. he / she / it. I. he / she / it. you / they. I / you / he / she / it / we / they. I / you / we / they. he / she / it. I / you / he / she / it / we / they. I / you / he / she / it / we / they. I / you / he / she / it / we / they.
---------------	--	---

Если ты хочешь сказать U я тоже не..., то есть, как и твой собеседник, ты НЕ любишь, НЕ можешь, НЕ делаешь что-то, используй Neither do I. / Neither have I. / Neither would I. Например,

Stephen: I wouldn't like to go to the gym.
Pete: Neither would I. (И я тоже.)

Pete: I haven't done it.

Stephen: Neither have I. (И я тоже.)

О других людях ты можешь рассказать и так:

Sasha is sporty, and so is Lena.

The boys didn't watch the match, and neither did their father.

UNIT 3

Used to

Если ты говоришь о том, что ты делал раньше, но не делаешь сейчас, используй used to. Обрати внимание на произношение ['ju:stʊ]. Например,

I used to ride a tricycle. (But I don't do it now.)

I didn't use to play the guitar.

(But I play it now.)

Have / Has been doing (Present perfect continuous)

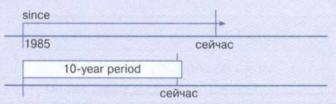

Если ты говоришь, что действие началось в прошлом и продолжается до сих пор, используй have / has been doing. Например,

He has been playing in the band for ten years.

(Он играет в музыкальной группе десять лет. / Он играет в ней в течение периода времени, равного десяти годам.)

He has been playing in the band since 1985.

(Он играет в музыкальной группе с 1985 года. / Он начал играть в 1985 году и играет до сих пор.)

UNIT 4

See somebody / something do something

Чтобы сказать: я видел или слышал, как произошло какое-то событие, используй конструкцию see + sb. / sth. + do sth.

Эта же конструкция используется с глаголами watch, hear. Например,

I saw a car drive through an arch in a tree.

(Я видела, как машина проехала через арку в дереве.)

I heard him open the door.

(Я слышал, как он открыл дверь.)

see / watch / hear	children John him her	do something
--------------------	--------------------------------	--------------

Was / Were + Ved(3) (Past passive)

Если ты говоришь о прошлом и для тебя важнее что произошло, а не кто это сделал, используй глагол в форме was / were + Ved(3), например,

The first jeans were made in California. (Первые джинсы сшили в Калифорнии.)

Если ты хочешь уточнить, кто это сделал или чем это вызвано, используй предлог by. Например.

The first jeans were made by Levi Strauss. (Первые джинсы сшил Леви Страус.)

Money, news

Слова money, news употребляй только в единственном числе. Например,

Мопеу - деньги

Money doesn't grow on trees. People earn it.

(Деньги не растут на деревьях. Их зарабатывают,)

News - новость, новости

No news is good news. (Отсутствие новостей - хорошая новость.)

Can / Can't для разрешения и запрещения

Говоря о том, что можно или нельзя делать, потому что есть такие правила или законы, используй can / can't, например,

You can't be late for school.

(В школу нельзя опаздывать.)

You can wear jeans to school.

(В школу можно носить джинсы.)

UNIT 5

Interesting / Interested

Чтобы сказать, что люди или объекты вызывают определенные чувства, например скуку, употребляй прилагательное с окончанием -ing.

The film was boring.

(Это был скучный фильм.)

Чтобы сказать о том, что человек чувствует, употребляй прилагательное с окончанием -ed. Например,

I was bored.

(Мне было скучно.)

Am / Is / Are + Ved(3) (Present passive simple)

Если ты говоришь о настоящем, и для тебя важнее что происходит, а не кто это делает, используй am / is / are + Ved(3). Например,

Making models is a long process: first a model is made in clay.

(Изготовление моделей — процесс длительный; сначала модель делают из глины.)

Если же ты хочешь уточнить, кто это делает или чем это вызвано, используй предлог by. Например,

The main parts are played by unknown actors.

(В главных ролях заняты неизвестные актеры.)

Direct speech (Прямая речь)

Обрати внимание на знаки препинания в предложениях с прямой речью. Например,

He muttered, "The treasure's somewhere here."

"The treasure's somewhere here," he muttered.

"Help!" he shouted, "My foot is stuck."

UNIT 6

Have known / Have been / Have had + for /since (Present perfect simple)

Когда ты хочешь сказать, что ты кого-то давно знаешь, что вы друзья вот уже много лет, а компьютер у тебя с трехлетнего возраста, то используй have + known, have + been, have + had. Например,

I have known my best friend for five years.

(То есть первый раз вы встретились пять лет назад и до сих пор дружите.)

We have been friends since then.

(То есть подружились вы давно, и до сих пор вы друзья.)

I have had a computer since I was three.

(То есть тебе подарили компьютер, когда тебе было три года, и сейчас у тебя он тоже есть.)

If I were you, I would...

Если ты хочешь дать совет или сказать, как бы ты поступил на месте другого человека, используй *If I were you, I would...* Например,

If I were you, I would go jogging every morning.

(Советую тебе бегать по утрам. / Будь я на твоем месте, я бы бегал по утрам.)

Conditional 2

Если ты воображаешь / представляешь, что бы ты сделал при определенных условиях (но сделать этого ты не можешь, поскольку эти условия сейчас не существуют), то используй конструкцию If ... V(2), ... would V(1) ... (conditional 2). Например,

If someone bullied me, I would still hold my head up.

(Если бы кто-то дразнил меня, я все равно был бы уверен в себе и ходил с высоко поднятой головой.)

If someone bullied me, I wouldn't think that I'm not as good as the others.

(Если бы кто-то дразнил меня, я бы не стала бы думать, что я хуже других.)

Ставь запятую после первой части предложения, если начинаешь предложение с іf.

UNIT 7

Reporting past statements (Косвенные утверждения)

Когда ты пересказываешь чужую речь, измени подлежащее и используй соответствующие местоимения. Например,

"I was very scared," she said.

("Я была очень напугана", - сказала она.)

She said (that) she was very scared.

(Она сказала, что (она) была очень напугана.)

Можно использовать два глагола say и tell. При использовании глагола tell указывай, к кому обращался говоривший. Например,

She said, "Mary, you were a very beautiful child." — She **said that** Mary was a very beautiful child. / She **told Mary** that she was a very beautiful child.

No article

Не используй артикль с существительными, обозначающими материалы. Например, My shoes are made of **leather**.

Will / Won't

Если ты хочешь сказать о том, что, по твоему мнению, может случиться в будущем, используй глагол will (won't). Например,

In the future people will have food tablets. They won't eat full meals.

UNIT 8

Article the

Артикль the используй с:

- 1 названиями океанов и морей (the Atlantic Ocean, the Black Sea)
- 2 названиями явлений или объектов, которые люди считают уникальными (the Earth, the Bermuda Triangle)
- 3 названиями исторических событий или исторических периодов (the Bronze Age, the First World War)

Indirect questions (Косвенные вопросы)

Если хочешь задать вопрос в более вежливой форме, то начни его словами *Do you know... Can / Could you tell me...* Обрати внимание, что вопросы после этих фраз имеют прямой порядок слов. Например,

Why did ships disappear in the Bermuda Triangle?

— Do you know why ships disappeared in the Bermuda Triangle?

Если ты хочешь передать чью-либо речь или вопрос, измени порядок слов в предложении на прямой. Например,

Why did ships disappear in the Bermuda Triangle?

Scientists can't explain why ships disappeared in the Bermuda Triangle.

Negative sentences with I don't think (Отрицательные предложения с I don't think)

Если ты не согласен с собеседником и хочешь сказать ему об этом, начни предложение с I don't think... / I don't believe... Глагол во второй части предложения не должен иметь отрицательную частицу. Например,

He can't swim well. - I don't think (that) he can swim well.

UNIT 9

No article

Не употребляй артикль с названиями планет. Например,

A spaceship will soon go to Mars.

Не употребляй артикль в выражениях in space, on Earth. Например,

Walking in space is exciting.

Article the

Используй артикль the с названиями космических объектов, которые земляне воспринимают как уникальные, the sun, the moon, the earth, the universe. Например,

The sun is a hot star.

Wordlist / Список слов

В этом Списке слов* ты найдешь все новые слова, которые встречаются в учебнике.

В английском языке однокоренные слова, принадлежащие к разным частям речи, часто совпадают по форме, например love существительное и love глагол. Тогда каждое из них рассматривается в новой словарной статье.

Если слово имеет несколько значений, то они приводятся в отдельной словарной статье. К сожалению, слова нельзя переводить с одного языка на другой механически. Поэтому, чтобы выбрать правильный перевод, надо знать, в какой ситуации (в каком контексте) слово употребляется. В этом тебе поможет ссылка на раздел и урок, где это слово встречается впервые, например, (U5L1).

Чтобы сделать точный перевод, запомни, из чего состоит словарная статья.

Обычно она включает: заглавное слово, [транскрипцию], часть речи, к которой относится данное слово, и перевод. Если данное слово — неправильный глагол, то его формы даны рядом в скобках, например go (went, gone).

В словаре ты найдешь такие сокращения:

BrE British English британский вариант английского языка AmE American English американский вариант английского языка adi adjective прилагательное
