Read the article about a family who live in a castle.

Are the sentences 1–7 'Right' (A) or 'Wrong' (B)?

If there is not enough information to answer 'Right' (A) or 'Wrong' (B), choose 'Doesn't say' (C).

I live in a castle!

Gabriel and his family moved from London to live in a castle in Scotland.

Our family decided that we all wanted to live together, so we looked in the newspapers and in 2010 my aunt and uncle found a castle we could buy. There are 17 of us altogether, including aunts, uncles and grandparents and we all have a room each. The castle is really big – it takes about ten minutes to walk from one side to the other. It's really cold inside the castle, especially in winter. My aunt wears a coat inside as it's so cold. We only had one fire at first and there were no toilets when we moved in either! When I lived in London, the shops and school were very near. Here at the castle, it takes 20 minutes to get to the next village to go shopping. School is four kilometres away.

The best thing about living in the castle is that there is a lot of space – I can ride my bicycle all day in our large garden. I don't watch our television as much as I did. We now have electricity and bathrooms and a modern kitchen so things are much better than they were. I love living in a castle and I hope I can stay here forever!

Reading Part 4

Read the article about sleep.

Are sentences 1–7 'Right' (A) or 'Wrong' (B)? If there is not enough information to answer 'Right' (A) or 'Wrong' (B), choose 'Doesn't say' (C).

Getting to sleep

Sleep is very important – in fact, it's just as important for your body as eating and exercising. If you don't get enough sleep, then you won't be able to enjoy yourself. Playing with friends, going swimming or even watching DVDs will not be much fun if you're tired.

People of all ages need sleep, but different people need different amounts. Babies sleep about twice as long as they stay awake. Teenagers need about eight or ten hours a night and older people need less – six

or seven hours. But one person may need more than another even if they are both the same age.

Six out of ten children say they are tired during the day, which means they are not getting enough sleep. So how can you get to sleep? A good idea is to write down what you are thinking about before you go to bed. Then, make sure your bedroom is as dark as possible and it isn't too hot or too cold. You can also try counting from 1 to 100 with your eyes closed. Don't drink cola before going to bed and don't do any sport in the evening. Reading an exciting book or watching an adventure film isn't a good idea either!

Example:

0 Sleeping is more important than eating.

A Right B Wrong C Doesn't say
