#### THE PREFACE

Представленный вашему вниманию сборник олимпиадных заданий по английскому языку разработан в рамках проекта OLYMPWAY, осуществляемого в Московском центре педагогического мастерства. Основная цель его – помочь учащемуся подготовиться к успешному выступлению на олимпиадах разных уровней: от школьного до всероссийского.

Ребятам предстоит разобраться в специфике олимпиадного подхода к заданиям, приобрести ряд навыков, без которых цель получить заветный диплом победителя или призера становится утопичной.

Самый сложный раздел на олимпиаде — это Use of English, которому и посвящена в основном наша книга. Страноведение, идиомы, фразовые глаголы, поговорки и т.д. — неотъемлемая составляющая любой олимпиады, в то время как не так много тренировочных пособий можно найти на книжной полке. Наша книга призвана помочь решить эту проблему.

Большая часть заданий составлена с оглядкой на традиции, литературу, историю и культуру англоязычных стран. В качестве источников послужили аутентичные тексты, как сугубо литературные, так и научно-популярные. На подбор материалов известное влияние оказали научные интересы автора, занимающегося школьными системами англоязычных стран, что, в свою очередь, позволит учащемуся глубже погрузиться в языковые реалии.

За последние годы автор подготовил трех победителей заключительного этапа всероссийской олимпиады (из них двух абсолютных), что позволяет говорить об успешной апробации представленной методики.

Пособие содержит 175 заданий, распределенных по юнитам. Уровень сложности заданий позволит обучающимся успешно подготовиться к олимпиаде, начиная со школьного этапа. В конце пособия прилагаются ключи.

И в заключение напомним, что в олимпиадном движении факт участия приравнивается к интеллектуальной победе!

The only excuse for making such a thing is that one admires it intensely.

Task 4. Write one word in each gap. One letter in each word and its position are given as an additional clue.

1	Liverpool is a lakeside village in Onondaga, New York, United States.	
2	The population was 2,347 at the 2010	
3	The name was from the city of Liverpool in the United Kingdom.	P P
4	The village is located on Onondaga Lake, in the western part of the town of Salina and is northwest of Syracuse, of which it is a	В
5	The area was originally inhabited by the, starting in the 16th century.	Q
6	In the mid-17th century, Canadian Jesuits visited the area, setting up missions.	E
7	These were not very permanent,	
8	An example of these missions is Sainte Marie among the Iroquois, on Onondaga just outside the village.	E
9	Once the Erie Canal and Oswego Canal were built, the area was settled by Irish canal workers, Yankee settlers, and, later, German immigrants. The early recorded name for the village was "Little".	R
10	The Lucius Gleason House and Liverpool are listed on the National Register of Historic Places.	E

Task 5. One word in each line is incorrect. Write the correct word. There can be different types of mistakes.

		INCORRECT	CORRECT
1	I fear I may have made a longer excursus then was necessary, and that fewer words would have dispelled the uneasiness which may have arisen among some of you as I announced my pathological programme.		
2	At any rate you must all be ready now to judge the religious lives by its results exclusively, and I shall assume that the bugaboo of morbid origin will scandalize your piety no more.		

: 2	Still you may asking ma if its regults are	
3	Still, you may asking me, if its results are	
	to be the ground of our final spiritual es-	
	timate of a religious phenomenon, why threaten us at all with so much existential	
	study of its conditions? Why not simply	
	leave pathological questions out?	
4	To this I reply in two ways: First, I say, ir-	
	repressible curiosity imperiously leads one	
	on; and I say, thirdly, that it always leads	
	to a better understanding of a thing's sig-	
	nificance to consider its exaggerations and	
	perversions, its equivalents and substitutes	
	and nearest relatives elsewhere.	
5	Nor that we may thereby swamp the thing	
	in the wholesale condemnation which we	
	pass on its inferior congeners, but rath-	
	er that we may by contrast ascertain the	-
	more precisely in what its merits consist,	
	by learning at the same time to what par-	
	ticular dangers of corruption it may also be	
	exposed.	
6	Insane conditions had this advantage, that	
	they isolate special factors of the mental	
	life, and enable us to inspect them un-	
	masked by their more usual surroundings.	
7	They play the part in mental anatomy	
	which the scalpel and the microscope plays

8	To understand a thing rightly we needn't to	•
	see it both out of its environment and in it,	
	and to have acquaintance with the whole	
	range of its variations.	
9	The study of hallucinations has in this road	
	been for psychologists the key to their	
	comprehension of normal sensation, that	
	of illusions has been the key to the right	
	comprehension of perception.	
10	Morbid impulses and imperative concep-	
10	tions, "fixed ideas," so called, have thrown	
	a flood of rays on the psychology of the	
	normal will; and obsessions and delusions	
	have performed the same service for that of	
	the normal faculty of belief.

## Task 50. Write one word in each gap.

1	Fossils are the remains, or even the indications, of animals and plants that		
	, through natural agencies, been buried in the earth and preserved for		
	long periods of time.		
2	This may seem a rather meagre definition, but it is a difficult matter		
	frame one that will be at once brief, exact, and comprehensive; fossils are		
	not necessarily the remains of extinct animals or plants, neither are they, of		
	necessity, objects that have become petrified or turned into stone.		

3	Bones of the Great Auk and Rytina, are quite extinct, would hardly be considered as fossils; while the bones of many species of animals, still living, would properly come in that category, having long ago been buried by
	natural causes and often been changed into stone.
4	And yet it is not essential for specimen to have had its animal matter replaced by some mineral in order that it may be classed as a fossil, for the Siberian Mammoths, found entombed in ice, are very properly spoken of as fossils, although the flesh of at least one of these animals was so fresh that it was eaten.
5	Likewise the mammoth tusks brought to market are termed fossil-ivory, although differing but little the tusks of modern elephants.
6	Many fossils indeed merit their popular appellation of petrifactions, because they have changed into stone by the slow removal of the animal or vegetable matter present and its replacement by some mineral, usually silica or some form of lime.
7	But it is necessary to include 'indications of plants or animals' in the above definition because some of the best fossils may merely impressions of plants or animals and no portion of the objects themselves, and yet, as we shall see, some of our most important information has been gathered from these same imprints.
8	Nearly all our knowledge of the plants that flourished in the past is based the impressions of their leaves left on the soft mud or smooth sand that later on hardened into enduring stone.
9	Such, too, are the trails of creeping and crawling things, casts of the burrows of worms and the many footprints the reptiles, great and small, that crept along the shore or stalked beside the waters of the ancient seas.
10	The creatures themselves have passed, their massive bones even are lost, but the prints of their feet are as plain to-day as when they were first made.

1	The reader may possibly wonder why it is that fossils are	HABITAT			
	not more abundant; why, of the vast majority of animals				
	that have dwelt upon the earth since it became fit for the

	handle of my lady's parasol may have formed part of some	
	animal that flourished at the very dawn of the human race,	
	and been gazed upon by her grandfather a thousand times	
	removed.	
3	The answer to this query is that, unless the conditions were	CREATE
	such as to preserve at least the hard parts of any from	
	immediate decay, there was small probability of its becom-	
	ing fossilized.	
4	These conditions are that the objects must be protected	PRACTICE
	from the air, and,, the only way that this happens in	
	nature is by having them covered with water, or at least	
	buried in wet ground.	
5	If an animal dies on dry land, where its bones lie exposed	DESTROY
-	to the summer's sun and rain and the winter's frost and	
	snow, it does not take these agencies long to reduce	
	the bones to powder; in the rare event of a climate devoid	
	of rain, mere changes of temperature, by producing expan-	
	sion and contraction, will sooner or later cause a bone to	
	crack and crumble.	
6	Thus on dry land there is small for a bone to become	OPPORTUNE
·	a fossil; but, if a creature so perishes that its body is swept	OTTORTOTIL
	into the ocean or one of its estuaries, settles to the muddy	
	bottom of a lake or is caught on the sandy shoals of some	
	river, the chances are good that its bones will be preserved.	
7	•	DEEP
/	Suppose, however, that some animal has sunk in the of a quiet lake, where the wash of the waves upon the shore	DEEF
	wears the sand or rock into mud so fine that it floats out into	
0	still water and settles there as gently as dew upon the grass.  Scarce a reader of these lines but at some time has cast	EVICT

	anchor in some quiet pond and pulled it up, thickly covered	
	with sticky mud, whose would hardly be suspected	
	from the sparkling waters and pebbly shores.	TOMB
9	If, instead of a lake, our animal had gone to the bottom of	TOMB
	some estuary into which poured a river turbid with mud, the	
	process of would have been still more rapid, while,	
	had the creature been engulfed in quicksand, it would have	
	been the quickest method of all; and just such accidents did	
	take place in the early days of the earth as well as now.	
10	The exact manner in which this replacement is effected	DEFINE
	and in which the chemical and mechanical changes occur	
	is very far from being known-especially as the pro-	
	cess of "fossilization" must at times have been very com-	
	plicated.

5	It remained for the war to reveal the true nature of peoples.
6	The American colonists, M. Roz continues, other colonists, were animated not by material motives, but by the desire to safeguard and realize an ideal; our inherent characteristic today is a belief in the virtue and power of ideas, of a national, indeed, of a universal, mission.
7	In the Eighteenth we proposed a Philosophy and adopted a Constitution far in advance of the political practice of the day, and set up a government of which Europe predicted the early downfall.
8	Nevertheless, thanks partly to good fortune, and to the farseeing wisdom of our early statesmen who perceived that the success of our experiment depended upon the maintenance of an isolation from European affairs, we established as a practical form of government.
9	We have not always lived up to our beliefs in ideas. In our dealings with other nations, we yielded often to imperialistic ambitions and thus, to a certain extent, justified the cynicism of

Task 1. Write one word in each gap.

1	Mr. Bernard Shaw says, apropos Samuel Butler, that the English people do not deserve have a genius.
2	Butler himself in a note remarks that America, even America, will probably have men of genius, has indeed, already had one, Walt Whitman, but that he cannot imagine any country a genius would have more unfortunate surroundings than in America.
3	Mr. Arnold Bennett sends a shot from the same gun in "Milestones," when he makes the millionaire shipbuilder puff his chest and say that there no greater honor to English character than the way we treat our geniuses.
4	Egad! The unworthiness of the British and American nations to have artists born to them was more shamefully manifested than by the reception accorded thirty years ago to Hardy's "Jude, the Obscure."
5	Harper's Magazine, which seems to begun printing the story before the editors had seen the complete manuscript, fell into temporary disfavor with some outraged readers.
6	One British journal distinguished itself by reviewing the book the caption, "Jude, the Obscene."
7	It is inconceivable that any nation on the continent of Europe could, through its critics or through any considerable number readers, so dishonor a masterpiece.
8	For "Jude" is a masterpiece; it is not Hardy's greatest novel, it is one of his three or four greatest, and that means one of a score of supreme works of prose fiction in the language.
9	If profundity of substance and skill narrative are both considered, Hardy is without rival among British novelists.
10	His is the crowning achievement in the century of fiction that began with Jane Austen and, happily, has not terminated with Joseph Conrad.
11	In his hands the English novel assumed a form which, perhaps without good critical reason, one thinks of French.

1.2	Describe the array localisms of course and absorption Hands 2 array assess alien
12	Despite the racy localism of scene and character, Hardy's work seems alien
	to the Anglo-Saxon temperament; it has less common with the spa-
	cious days of great Victoria than with a younger time, whose living mas-
	ters, Mr. Conrad and Mr. Galsworthy, for example, have taken lessons in art
	across the channel.
13	In a prefatory note to "Desperate Remedies," dated February, 1896, Hardy
	lets fall casual phrase which indicates that he and others had noted his
	kinship to the French, but that he was not disposed to acknowledge it fully.
14	He seems say, with that kind of modest pride which distinguishes him,
	that he found his method for himself, played the game alone.
15	"As happened," runs the note, "that certain characteristics which pro-
	voked most discussion in my latest story ['Jude'?] were present in this my
	first-published in 1871, when there was no French name for them-it has
	seemed best to let them stand unaltered."

1	Belgian literature, taken the widest sense of the term, falls
	into three groups, consisting of works written respectively in
:	Flemish, Walloon and French.
2	The earlier French writers born on what is now Belgian ter-
	ritory – e.g. Adenès le Rois, Jean Froissart, Jean Lemaire des
	Belges and others included in the general history of
	French Literature.
3	It remains to consider the literature written Belgians in
	French during the 19th century, and its rapid development since
	the revolution of 1831.
4	Belgian writers were commonly charged with provincialism,
	but the prejudice them has been destroyed by the brilliant
	writers of 1870-1880.
5	It also asserted that Belgian French literature lacked a
	national basis, and was merely a reflection of Parisian models.
6	The most important section of it, however, has a distinctive
	quality of own.
7	Many of its most distinguished exponents are Flemings
	birth, and their writings reflect the characteristic Flemish scen-
	ery.

8	This profoundly national character disengaged itself gradually, and has more strikingly evident since 1870.	
9	The earlier writers of the century were content follow French tradition.	
10	The events of 1830-1831 gave great stimulus to Belgian letters, but the country possessed writers of considerable merit before that date.	
11	The whole of this literature derived more or from foreign sources, and, with the exception of Charles de Coster and Octave Pirmez, produced no striking figures.	
12	Lemonnier himself cannot exclusively claimed by any of the conflicting schools of young writers.	
13	He was by naturalist, lyrist and symbolist; and it has been claimed that the germs of all the later developments in Belgian letters may be traced in his work.	
14	The quinquennial prize of literature had been refused to his UN MÂLE, and the younger generation of artists and men of letters gave him a banquet which was recognized a protest against the official literature.	
15	He was well known as an advocate in Brussels, and made a considerable contribution jurisprudence as the chief writer of the <i>Pandectes belges</i> .

1	Shakespeare, by general,	UF
	is the greatest name in literature.	
2	There can be no in saying,	
	that to all who speak the English	T
	language his genius	
3	has made the world better worth	
	living in, and life a nobler and	D N
	thing.	
4	And even among those who	
	do not "speak the tongue that	
	Shakespeare spake," large num-	P
	bers are studying the English	
	language mainly for the of	
	being at home with him.	
5	How he came to be what he was,	
	and to do what he did, are ques-	
	tions that can never to be	
6	interesting, wherever his works	
	are known, and men's powers of	
	thought in any fair devel-	
	oped.	
7	But Providence has left a veil, or	
	rather a cloud, about his history,	
	so that these questions are not	
	likely to be answered.	
8	The first formal attempt at an	
	account of Shakespeare's life	
	was made by Nicholas Rowe,	
	and the result published in	
	1709,	
9	ninety-three years after the Po-	
	et's death. Rowe's account was	
	made up, for the most part,	

10	from traditionary materials col-
	lected by Betterton the actor,
	who made a visit to Stratford
	for that purpose.

Task 20. Write one word in each gap.

To be or not to be by Hamlet	coil
To be, or not to be: that is the: 1	
Whether 'tis nobler in the mind to suffer	himself
The slings and arrows of 2 fortune,	
Or to take arms against a sea of troubles,	hue
And by opposing end 3? To die: to sleep;	
No more; and by a sleep to say we end	love
The heart-ache and the 4 natural shocks	
That flesh is heir to, 'tis a consummation	name
Devoutly to be wish'd. To die, to sleep;	
To sleep: 5 to dream: ay, there's the rub;	outrageous
For in that sleep of death what dreams may come	ourugoous
When we have shuffled off this mortal 6,	perchance
Must give us pause: there's the respect	perenance
That makes calamity of 7 long life;	quation
For who would bear the whips and scorns of time,	question
The oppressor's 8, the proud man's contumely,	
The pangs of despised 9, the law's delay,	SO
The insolence of office and the spurns	.1
That patient merit of the unworthy takes,	them
When he 10 might his quietus make	
With a bare bodkin? who would fardels bear,	thousand
To grunt and sweat under a weary life,	
But that the dread of something after death,	traveller
The undiscover'd country from whose bourn	
No 11 returns, puzzles the will	wrong
And makes us rather bear those ills we have	
Than fly to others that we know not of?	
Thus conscience does make cowards of us all;	
And thus the native 12 of resolution	
Is sicklied o'er with the pale cast of thought,	
And enterprises of great pith and moment	
With this regard their currents turn awry,	
And lose the 13 of action.

#### Task 7. Write one word in each gap.

1	Niagara Falls (/naɪˈægrə/) is the collective name for three wa-	
	terfalls that straddle the international border between	
	and the United States; more specifically, between the province	
	of Ontario and the state of New York.	
2	They form the southern end of the Niagara Gorge. From larg-	
	est to smallest, the three waterfalls are the Horseshoe Falls, the	
	American Falls and the Bridal Falls.	
3	The Horseshoe Falls lie mostly on the Canadian side and the	
	American Falls entirely on the American side, separated by	
	Island.	
4	The smaller Bridal Veil Falls are also on the American side,	
	separated from the other waterfalls by Island.	
5	The international boundary line was originally drawn through	
	Falls in 1819, but the boundary has long been in dispute	
	due to natural erosion and construction.	
6	Located on the River, which drains Lake Erie into Lake	
	Ontario, the combined falls form the highest flow rate of any	
	waterfall in the world that has a vertical drop of more than 165	
	feet (50 m).	
7	Horseshoe Falls is the most powerful waterfall in Amer-	
	ica, as measured by vertical height and flow rate. The falls are	
	17 miles (27 km) north-northwest of Buffalo, New York, and	
	75 miles (121 km) south-southeast of Toronto, between the	
	twin cities of Niagara Falls, Ontario, and Niagara Falls, New	
	York.	
8	Niagara Falls were formed when glaciers receded at the end of	
	the Wisconsin glaciation (the last ice age), and water from the	
	newly formed Lakes carved a path through the Niagara	
	Escarpment en route to the Atlantic Ocean.	
9	While not exceptionally high, the Niagara are very wide.	
	More than six million cubic feet (168,000 m3) of water falls	
	over the crest line every minute in high flow, and almost four	
1.0	million cubic feet (110,000 m3) on average.	
10	The cities of Niagara Falls are connected by two international	
	bridges. The Bridge, just downriver from the falls, af-	
	fords the closest view of the falls and is open to non-commer-	
	cial vehicle traffic and pedestrians.

# **PART VIII**

Task 1. Correct the spelling mistakes. Tick (v) the sentences that are correct.

1	The biggraphy of December of the set of the
1	The biography of Poe got a wrong start imeddiately after his death when
	Griswold slandered him or at least put a false emphasis on certain aspects
	of his character. Since then, every book about Poe has had an argumentative
	tone, a defensive spirit, which in a way is as unfair to Poe as was the first
_	misrepresentation.
2	One sometimes feels like crying: "For heaven's sake read his work and let
	the man alone!"
3	Yet it is not possible to let Poe alone if you have once looked into his life;
	his story is one of the fascinating chapters of literary history.
4	Professor Smith says that his book, "Edgar Allen Poe, How to Know Him,"
	"is an attempt to substitute for the travesty the real Poe, to suggest at least
	the diversity of his interests, his future-mindedness, his sanity, and his hu-
	manity."
5	On the whole, Professor Smith's attempt is successful and he does help us
	to realize Poe's personality, "that co-ordination of thought and mood and
	conduct, of social action and reaction, of daily interest and aim," which
	Professor Smith justly says, "finds no portrayal in the biographies of Poe."
6	It is an odd fact that after Griswold two of the more authoritative biogra-
	phors of Poe did not like him. One was Richard Henry Stoddard; the other,
	Mr. George E. Woodberry.
7	Neither one, I suspect, chose Poe as a conginial, or even as an interesting
·	subject.
8	The task of writing his biography seems to have fallen to both men as a
Ü	literary chore; to Stoddard as an official critic who knew Poe, and to Mr.
	Woodberry as a rising young man of literary talent who thirty years ago was
	selected by the editor of the "American Men of Letters" to write the life of
	Poe.
9	Of course, Mr. Woodberry is a competent workman. When, in the year of
J	Poe's centenial, he enlarged his "Life" to two volumes, he put together in a
	judicial, objective style probably all the facts that we need to know.
10	• <del>१</del> •••••••••••••••••••••••••••••••••••
10	But his easthetic judgments are at best unsympathetic.

## Task 2. Write one word in each gap.

1	The one fault that can found with Traubel's "With Walt Whitman in Camden" is that there is too much of it.								
2	But that is fault easily remedied without blotting a line of the record.								
3	Books that contain too little may cheat us of desired knowledge, whereas books that contain too much can do harm; every reader has the privilege of not reading at all or of dipping into a book here and there.								
4	Traubel's method is admirable; it is that a documentary historian.								
5	He set down Whitman's talk and such impressions and facts as the biographer recorded the moment, and he reproduced the letters in the order in which Whitman gave them to him.								
6	He did not presume to select from Whitman's conversation what now seems most interesting or most to Whitman's credit, but he gave you all that he had you to enjoy or ignore and for other biographers and historians to make use of as they will.								
7	Traubel made no concessions the fact that readers have to catch trains and read other books, and he ignored, perhaps to his personal disadvantage, certain exigencies of publication, such as the publisher's obvious need to interest as many people as possible with the least possible expenditure.								
8	Traubel's method is simple from an artistic point view, requiring nothing but accuracy, courage and industry.								
9	Yet the method is a great strain all concerned.								
10	The reader can stand it, because, as I said, he can take as much or as little as suits him.

Task 20. Read the text below and look carefully at each line. Some of the lines are correct, and some have an extra word. Tick (v) the sentences that are correct. If a line has a word which should not be there, write the word down.

1	John Bell, American political leader, was born near Nashville, at Tennessee, on the 15th of February 1797.	
2	He graduated at the university of Nashville in 1814, and in 1817 was elected to the state senate, but retiring after one term, he devoted himself for ten years to the study and the practice of the law.	
3	From 1827 until 1841 he was a member of the national House of Representatives, of which from June 1834 to March 1835 he was the speaker, and in which he was been conspicuous as a debater and a conservative leader.	
4	Though he entered political life as a Democrat, he became estranged from his party's leader, President Jackson, also a Tennessean, and after 1835 was one of the leaders of the Whig party in the South.	
5	In March 1841 he became the secretary of war in President Harrison's cabinet, but in the September, after the death of Harrison and the rupture between the Whig leaders and President Tyler, he resigned this position.	
6	Strongly conservative by temperament and devoted to the Union, he ardently desired to prevent the threatened secession of the Southern states in 1860, and was the candidate, by for the presidency, of the Constitutional Union Party, often called from the names of its candidates for the presidency and the vice-presidency (Edward Everett) the "Bell and Everett Party," which was made up largely of former Whigs and Southern "Know-Nothings," opposed sectionalism, and strove to prevent the disruption of the union.	
7	The party adopted no platform, and discarding all other issues, resolved that "it is both the part of patriotism and of duty to recognize no political principle other than the constitution of the country, the union of the states, and the enforcement of the laws."	
8	Bell was defeated, but received a popular vote of 587,830 (mostly cast in the Southern states), and if obtained the electoral votes of Virginia, Kentucky and Tennessee–39 altogether, out of a total of 303.	

9	Bell tried earnestly to prevent the secession of his own state,					
	but after than the issue of President Lincoln's proclamation of					
	the 15th of April 1861 calling on the various states for volun-					
	teers, his efforts were unavailing, and when Tennessee joined					
	the Confederacy Bell "went with his state."					
10	He took no part in the Civil War, and died on the 10th of the					
	September 1869.

Task 30. Read the text below and look carefully at each line. Some of the lines are correct, and some are incorrect. Tick (v) the sentences that are correct, or write the correct word where necessary. There can be different types of mistakes.

•		INCORRECT	CORRECT
1	The Declaration of Independence is the statement adopted by the Second Continental Congress meeting in the Pennsylvania State House (Independence Hall)		
2	in Philadelphia on July 4, 1776, which announced that the fourteen American colonies, then at war with the Kingdom of Great Britain, regarded themselves as thirteen newly inde-pendent sovereign states, and no longer under British rule.		
3	Instead they formed a new nation—the United States of America.		
4	John Adams was a leader in pushing for independence, which was passed on July 4 with no opposing vote cast.		

•••••		 •
5	A committee of 6 had already drafted the formal declaration, to be ready when Congress voted on independence.	
6	John Adams persuaded the committee to select Thomas Jefferson to compose the original scheme of the document, which Congress would edit to produce the final version.	
7	The word «Declaration of Independence» is not used in the document itself.	
8	The Declaration was ultimately a formal explanation of why Congress had voted on July 2 to declare freedom from Great Britain, more than a year after the outbreak of the American Revolutionary War.	
9	The next day, John Adams wrote to his daughter Abigail: "The Second Day of July 1776, will be the most memorable Epocha, in the History of America."	
10	But Independence Day is actually celebrated on July 4, the date that the Declaration of Independence was adapted.	
11	After ratifying the text on July 4, Congress issued the Declaration of Independence in several forms.	
12	It was initially published as the printed Dunlap broadside that was widely distributed and read to the congressmen.	
13	The source copy used for this printing has been lost, and may have been a copy in Thomas Jefferson's hand.	
14	Jefferson's original draft, complete with changes made by John Adams and Benjamin Franklin, and Jefferson's notes of changes made in Congress, are preserved at the Li- brary of Congress.	
15	The best known version of the Declaration, a signed paper that is popularly regarded as the official document, is displayed at the National Archives in Washington, D.C. This engrossed copy was ordered by Congress on July 19, and signed primarily on August 2.

#### Task 4.

1	Geoffrey Chaucer is widely considered the greatest English poet of the Mid-
	dle Ages.
2	King Edward III had made Chaucer one of his esquires.
3	He is believed to have died of unknown causes on 25 October 1400, but
	there is no firm evidence for this date.
4	In 1556, his remains were transferred to a more ornate tomb, making Chau-
	cer the first writer interred in the area now known as Poets' Corner.
5	Chaucer's work was crucial in legitimizing the literary use of the Middle
	English vernacular at a time when the dominant literary languages in Eng-
	land were French and Latin.

#### **Task 18.**

1	Beethoven himself wrote to his publisher that these three sonatas represent-
	ed a new phase in his style.
2	His whole development is entirely ruled by his determination to let nothing pass until it has been completely mastered.
3	On the contrary, the harmonies are held together by an orderly sequence in the bass.
4	The short introduction to the finale is harmonically and emotionally the most profound thing in the sonata.
5	Beethoven's revision of his earliest works is now known to have been extensive and drastic.
